Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct.

5, 1985 If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on April 2, 1985, for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,507,801 through 4,509,212
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months are set forth in 37 CFR 1.20(e) and (h), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Request For Suggestions For New Search Terms to be Added to the CASPIR Topic Index Lists For Searching Computer & Data Processing Art in Class 364 Subclasses 200 and 900

The CASPIR (Computer Aided Search and Patent Image Retrieval) system is a successor to the CCMSS (Computer Controlled Microfilm Search System). CASPIR is a mechanized search system which includes a database of over 9000 patents and other published documents classified in 364/200 (General Purpose Programmable Digital Computer Systems) and 364/900 (Miscellaneous Digital Data Processing Systems). For additional information concerning CASPIR, see 1052 OG 56 (Mar. 26, 1985).

Each document in the CASPIR database is "coded" (or numerically indexed) with selected terms that reflect the conceptual content of the document. Searching involves the use of these terms and boolean logic to identify documents containing teachings related to the concepts which correspond to the selected terms. The identified patents or other documents are then viewable on a microstrip viewer.

Currently, there is a term list of about 400 topics (concepts) for searching in the 364/200 art and there is an-

other term list of about 400 topics for searching in the 364/900 art. Copies of these terms lists are available at the CASPIR terminals in the Public Search Room (Crystal Plaza, CP-3-1A-03) or by contacting the undersigned.

Each of these two CASPIR term lists is being expanded to incorporate emerging and growing areas within the art. Suggestions are invited — from attorneys/agents, searchers, inventors, or other interested parties — for new terms to be included on the expanded CASPIR term lists. Suggestions may be either for additional breakouts (i.e., indents or more subdivisions detailed) of existing categories on the old term lists or for wholly new categories (outdents) or concepts which are becoming particularly pertinent within the computer architecture and data processing art.

Responses to this notice may also include brief comments or definitions (and/or illustrative examples of hardware/software elements) indicative of the intended scope of the suggested new terms. In suggesting terms, those responding should be aware of the necessity to weigh the cost of coding documents for each term versus the usefulness of the term for search purposes in determining how many and what kinds of terms are submitted.

Date: Any suggestions for new CASPIR terms should be received by May 2, 1988.

Address: Address written comments and suggestions to the Commissioner of Patents and Trademarks, Washington, D.C. 20231 to the attention of Earl Levy, Crystal Plaza 4-11D-37. For further information contact Earl Levy by telephone at (703) 557-5088.

In the Matter of

Arthur O. Klein Docket Number 84-1
Respondent

AMENDED DECISION[*]

This is a disciplinary proceeding initiated against Arthur O. Klein, an attorney currently registered to practice before the United States Patent and Trademark Office (PTO), registration number 19102. The proceeding is brought under 35 U.S.C. §32 and the regulations promulgated thereunder, 37 C.F.R. Part 1.

The Respondent is charged in the Notice of Proceeding dated Aug. 17, 1984, with four counts of alleged misconduct arising out of the handling of eleven papers in ten separate patent applications, and in giving false answers in PTO Requirements for Information relating to two of the ten applications, in violation of 37 C.F.R. §§1.344 and 1.56, DR 1-102(A)(4), and DR 6-101(A)(3) of the Code of Professional Responsibility of the American Bar Association (1970) (the Code). The Solicitor seeks to have Respondent suspended or excluded from further practice before the PTO. The matter was assigned to Administrative Law Judge (ALJ) Hugh J. Dolan and a hearing, requested by Respondent, was held at two locations on the following dates: On June 24-25, 1985, in Arlington, Va.; on June 26-28, 1985, in New York City, N.Y.; and on July 1, 2 and 15, 1985, and Mar. 26, 1986, in Arlington, Va.

After careful review of the evidence and the arguments presented by the Respondent and the Solicitor, Judge Dolan prepared a Recommended Decision, dated May 2, 1986, in which he recommended that Respondent be barred from practice before the United States Patent and Trademark Office.

Respondent duly filed Respondent's Exceptions to the Recommended Decision of the Administrative Law Judge. Having reviewed the record in these proceedings, and having considered fully Respondent's Exceptions as well as "Respondent's Point by Point Submission in Opposition to the Recommendation of the Administrative Law Judge," I adopt the Recommended Decision, dated May 2, 1986, but modify it as set forth below.

THE COUNTS

Count 1 accuses Respondent of willfully engaging in dishonesty, fraud, deceit or misrepresentation, and violating the duty of candor and good faith, in filing, or causing to be filed, in the PTO one or more of eleven papers, each with a certificate of mailing pursuant to 37 C.F.R. §1.8[1], when he knew or should have known that each would be mailed *after* the date on the corresponding certificate of mailing. These papers are referred to as Responses I-XI, respectively, in the Notice and in the record.

Count 2 accuses Respondent of neglect of legal matters entrusted to him in that one or more of Responses I-XI were mailed to the PTO after the due date for response and, hence, in an untimely manner.

Counts 3 and 4 accuse Respondent of willfully engaging in dishonesty, fraud, deceit or misrepresentation, and violating the duty of candor and good faith, in giving false answers to questions in PTO Requirements for Information. The Requirements for Information were in respective applications, each the subject of a Count.

In summary, the Government contends that Respondent backdated submissions and certificates of mailing, thereby representing that his submissions to the PTO in the ten noted applications were timely when they were, in fact, late. The Respondent contends that all submissions were timely and in accordance with the certificate of mailing practice (37 C.F.R. §1.8), and that any recorded delays were due to the Postal Service and/or the PTO mailroom.

I. THE CERTIFICATES OF MAILING

The Respondent argues that the ALJ erred in holding the Respondent had signed all the certificates of mailing. The ALJ's holding was, in fact, that Respondent was responsible for the certificates of mailing, whether signed by him personally or by his employee secretary[2].

II. KLEIN AND VIBBER OFFICE PRACTICES

The Respondent noted numerous exceptions to the ALJ's findings regarding the office practices of Respondent.

[*] ed. note; This matter is currently under judicial review pursuant to 35 U.S.C. §32.

[1] *37 C.F.R. §1.8*

37 C.F.R. §1.8 ("Rule 8") (RX-112) provides with certain exceptions that a paper required to be filed in the PTO within a set period will be considered as being timely filed if the paper (1) is addressed to the Commissioner of Patents and Trademarks at Washington, D.C. 20231, (2) is deposited with the U.S. Postal Service with sufficient postage as first class mail prior to the expiration of the set period, and (3) includes a certificate stating the date of deposit with the U.S. Postal Service.

[2] Brigitte Metzler signed two (2) of the certificates of mailing, in the Menges application and in the Klinkhardt application. The ALJ recited that the "Certificate of Mailing" was signed by one of Mr. Klein's secretaries etc." See paragraph VIII, page 5 and the last paragraph on page 6 of the Recommended Decision.

III. PTO MAILROOM PRACTICE

The Respondent notes numerous exceptions to the ALJ's findings and ultimate holding that the operation of the PTO mailroom did not contribute to the delays in the receipt of the papers which form the charges against the Respondent in Counts 1 and 2.

IV. U.S. POSTAL SERVICE TIME

The Respondent claims reliance on the U.S. Postal Service's Origin-Destination Information System (ODIS) as evidence of delivery time is misplaced.

V. RESPONDENT'S CERTIFICATE OF MAILING PRACTICE AND DETERMINATION OF RELEVANT DATA

The Respondent notes exceptions to the ALJ's findings and conclusions as they relate to the number of patent applications involved, the PTO's computer printout used to determine the relevant application population and the failure to include Trademark applications in the population.

VI. U.S. POSTAL SERVICE DATA AND OTHER DATA

The Respondent also notes numerous exceptions to the findings based upon the statistical data of the Postal Service's Origin-Destination Information System (ODIS) and the conclusion that the ODIS Reports, comparisons with other firms in Respondent's area and with other members of the Klein and Vibber firm, as well as common sense and shared experience with the postal system are clearly convincing that the number and percentage of Respondent's alleged mail delays were not attributable to the U.S. Postal Service.

VII. REQUIREMENTS FOR INFORMATION

The Respondent notes exceptions to the Requirements for Information issued by the PTO in regard to papers filed in two (2) of the applications upon which these charges are based, as well as the charges flowing from the Respondent's allegedly false answers thereto.

VIII. DUE PROCESS

Respondent contends that the statutes and regulations governing PTO disciplinary proceedings not only violate his due process rights by imprecisely establishing applicable standards of conduct, but the failure to accept all the Respondent's submissions in this proceeding likewise constitute a breach of his guarantees of due process.

IX. STANDARD OF NEGLECT

The Respondent contends there must be a showing of willful neglect before a violation may be found and that such has not been shown by clear and convincing evidence.

With respect to the noted (I–IX) areas of exception, it is my conclusion that the exceptions are without merit and that the ALJ has adequately treated these matters at pages 7 through 27 of the Recommended Decision. I fing nothing in these exceptions to the Recommended Decision which requires any amendments to the Recommended Decision as it relates to these areas other than as noted with respect to item I and adopt the conclusions of the ALJ as set forth on pages 35 and 36 of the Recommended Decision except for the ALJ's reference on page 35 to an "absence of any prior charges, investigation or disciplinary proceedings brought by any bar association or the Patent and Trademark Office." The fact is there is no evidence of record on any of these points. In fact, Respondent did not introduce any evidence as to his good character or reputation. Therefore, I conclude that there is no evidence on which to base such a conclusion.

I conclude that there are no mitigating or extenuating circumstances in this case. On the contrary, there are present certain aggravating factors, such as Respondent's lack of cooperation during the course of this proceeding, Respondent's misleading use of evidence at the hearing and Respondent's misstatements of facts in his post-hearing briefs.

As an example of lack of cooperation, the record indicates that Respondent at first refused to comply with any of the pre-hearing discovery requests of the Solicitor, which included requests for non-privileged material and relevant evidence, and then when required to do so by order of the ALJ, Respondent failed to comply completely. The Respondent, in his Answer, instead of admitting or denying that he signed certain documents apparently containing his signature and filed in particular patent applications, he represented, as was his right, that he had no knowledge sufficient to form a belief as to whether he signed them on the ground that he no longer possessed records on the applications. However, when the Solicitor thereafter sent Respondent true copies from PTO records of these documents and offered the originals up for his inspection, Respondent still refused to admit or deny his signature[3] (see the Solicitor's Motion in Limine filed June 10, 1985). It was not until the hearing, after the Solicitor went to the trouble of subpoenaing employees of Respondent's law firm who were familiar with his signature, and after ordered to do so by the ALJ (see Order of the ALJ entered June 21, 1985, item 7), that Respondent admitted his belief that the signatures were his (see I:126–151).

An example of misleading use of evidence at the hearing is Respondent's exhibit RX–87A, in an attempt to show an irregularity in date stamping by the mailroom. The exhibit indicates that the Assignment Branch of the PTO cancelled the PTO receipt date of June 29, 1983, not because the paper was not received that date, but most likely due to some irregularity in the assignment alluded to therein. The paper was, in fact, resubmitted to the PTO and received on Aug. 25, 1983 (I:287.22–291.23). The July 1, 1983 Finance Branch date at the bottom is consistent with the correctness of the original June 29, 1983 receipt date and is in no way indicative of any irregularity in date stamping by the mailroom (see the Solicitor's Post-Hearing Submission at pages 73–74).

An example of the misstatements of fact in Respondent's post-hearing briefs based on evidence which has either been discredited, misinterpreted or taken out of context, or which is simply not in the record, or which ignores other equally or more probative evidence which explains, qualifies or contradicts the evidence on which the misstatements are based, is with regard to the Klinkhardt application (Responses X and XI). Respondent refers to a letter to the client dated Apr. 11, 1983 regarding a "Petition" (B.7, PFF 367). The (German language original) letter —RX–436— refers to an "eingable", meaning an amendment, not a petition. The letter does not refer at all to a petition to extend the time (Response X). Moreover, the statement "[a] Petition for Extension of Time was mailed *with* the Amendment to the PTO which extended the due date for the PTO response from Mar. 8, 1983 to Apr. 8, 1983" (emphasis added) (B.12) is incorrect. Even Respondent admits that these papers —Responses X and XI— were mailed separately (GX–33, page 3), (see Solicitor's Rebuttal Brief, filed Oct. 30, 1985).

[3] Respondent was given the opportunity to rely on his Fifth Amendment right against self-incrimination in refusing to admit or deny his signature and in withholding other information subject to the Solicitor's discovery requests (see Order of ALJ entered Jan. 31, 1985, Part III) and chose not to, saying he had "nothing to hide" (see letter from Steven E. Lipman to ALJ dated Feb. 8, 1985, item (1) and Motion By Respondent To Vacate Or Reconsider Order of Jan. 31, 1985, filed Feb. 11, 1985, item C, page 19)

Respondent states in his cover letter of Nov. 17, 1986, that "Respondent's Point by Point Submission In Opposition to the Recommended Decision of the Administrative Law Judge" is made "under protest" because his non-entered brief of Sept. 29, 1986 (Respondent's Principal Brief) was found to be not in compliance with the Decision on Briefs entered Aug. 7, 1986.

Respondent's principal argument is that the Deputy Commissioner's decision requiring that the brief be limited to "specific references to the record corresponding to the exceptions noted . . ." denies Respondent "an opportunity to explain in coherent fashion the reasons why the RD cannot be adopted". He further contends that:

> The required format of numbered Exceptions in numerical order, rather than topical order as they relate to each other *as a whole*, so seriously dilutes the force of Respondent's legitimate complaints about the RD that it denies Respondent the right to a full and fair review of the RD by the Commissioner.

First of all, the Respondent's Submission incorporates, essentially verbatim, the Respondent's Principal Brief, albeit that it is rearranged in numerical order and includes, for the most part, specific references to the record. The Submission does include "substantial further argument", hence Counsel has ignored that portion of the Deputy Commissioner's Order. Since the Solicitor did not object to the inclusion of further argument, the Submission was accepted as being in complicance with the Order. Note, for example, pages 65 through 85, of "Respondent's Point by Point Submission In Opposition to the Recommended Decision of the Administrative Law Judge", wherein Respondent's Counsel presents extensive arguments relating to Respondent's Exceptions 66–71.

Secondly, the reason the order requested the numerical and sequential response was to facilitate a thorough consideration of the complex issues in this case in light of the one hundred forty-three (143) exceptions noted by Respondent.

Therefore, contrary to the Protest made by Respondent's Counsel, Respondent has been accorded a full and fair opportunity to seek a review of the Recommended Decision of the ALJ. Furthermore, in reaching this decision, the undersigned gave full consideration to all of the briefs filed with the ALJ including the post-hearing submissions.

Counsel for Respondent has repeatedly argued that the case against his client is based primarily on statistical evidence from the U.S. Postal Service. I did not consider it so. The other evidence in this case (discussed in the following paragraphs) is, in my opinion, clear and convincing with respect to the findings in the case.

For example, over the time period in question (June 2, 1981 through May 31, 1983) fifty-six (56) papers were found which were filed by the Klein and Vibber firm with both a certificate of mailing and having a mailroom date stamp before May 31, 1983 (GX–3). Respondent signed twenty-five (25) of these papers (K cases) and the remainder were signed by other agents and attorneys at the firm (N-K cases).

It is significant to note that of the N-K cases (GX–18A), ten (10) included certificates of mailing signed by Respondent (the accompanying papers being the responsibility of another member of the firm), but none had a service or delivery time which exceeded five (5) days and in most cases the service time was three (3) days or less. In other words, other members of the Klein and Vibber firm who had responsibility for filing papers at the PTO, had no apparent trouble in getting mail delivered to the PTO. Yet of the nineteen (19) papers in patent applications with *Respondent's* signature and a certificate of mailing signed by *Respondent*, ten (10) took over a week to arrive at the PTO (see GX–18).

Add to this the data from the survey of papers at the Soffen firm, the Fitzpatrick firm data, and Darby and Darby firm, and the Connecticut cases data, where the evidence shows that the percentage of first class mail taking over a week to get to the PTO was approximately one percent or less.

Of particular concern here is the pattern of misconduct evidenced during the time period of November, 1982 through March, 1983 (involving Responses II through IX) where *every paper* filed by Respondent with a certificate of mailing was at least a week and most frequently more than two weeks in arriving at the PTO based on the certificate of mailing date (see GX–18). It, therefore, defies logic as to how *all* of these cases prosecuted by Respondent could have been mishandled by the U.S. Postal Service and/or the PTO to have resulted in such a clear departure from the norm. Clearly, no one else at the Klein and Vibber firm or at the other firms surveyed experienced such mail service. If there was an isolated case involving a certificate of mailing, then the trier of fact could logically conclude that it was consistent with the statistics from the other firms and also from the U.S. Postal Service. The pattern of misconduct by Respondent was clearly established.

While the evidence of backdating and late mailing by Respondent is circumstantial, such does not mitigate against its meeting the requisite standard of proof (clear and convincing evidence). That Respondent intentionally engaged in acts of misconduct relating to the use of certificates of mailing is clearly and convincingly established by the evidence of record, i.e., the statistical evidence from the Postal Service relating to the normal delivery time for mail between New York and Washington; the non-delayed arrival at the PTO of other items of mail from the Klein firm and from similarly located law firms and the out of order checks used by Respondent to pay fees in those untimely responses requiring a fee. It is appropriate here, as in criminal law, that to meet the burden of proof the government may rely upon circumstantial evidence. *U.S.* v. *Meyers*, 601 F. Supp. 1072, 1074, D.C. Org. (1984).[4]

As for the rebuttal evidence submitted by Respondent, to the extent the Respondent relied upon these incomplete copies of the mail logs as evidence rebutting the Solicitor's case the mail logs are not entitled to any weight whatsoever. It is elementary hornbook law that with respect to any documentary evidence, the best evidence is the original.[5] Respondent and his counsel were put on notice as early as Oct. 31, 1984, by the Solicitor's request for these documents. Once having been put on notice that these mail log documents were important to the prosecution, Respondent and his counsel had a duty to safeguard such evidence.[6] The record is devoid of any evidence which would show that any safeguards were even undertaken. They had the originals when they produced the incomplete copies.[7] The apparent loss of these original documents is inexcusable. Therefore, the prohibition relating to the mail log evidence runs only to the Respondent.

[4] Circumstantial evidence can be used to prove any fact, including a fact from which another fact is to be inferred. *U.S.* v. *Kelly*, 527 F.2d 961, 965 (9th Cir. 1976). Moreover, even where no single piece of circumstantial evidence supports a finding of guilt, the accumulation of such evidence can support such a finding. See *U.S.* v. *Morando-Alvarez*, 520 F.2d 882, 884–85 (1975).

[5] 32A C.J.S. §810, page 149.

[6] In *Argo Marine* v. *Camar Corp.* 755 F.2d 1006, CA 2 (N.Y.) 1985, the Court held the District Court did not abuse its discretion by imposing discovery sanctions based upon finding that plaintiff had violated its discovery order concerning the producing of desk calendar pads. Fed. Rules Civ. Proc., Rule 37; In *Wm. T. Thompson, Co.* v. *General Nutrition Corp., Inc.*, 593 F. Supp. 1443, 104 F.R.D. 119, 40 F.P.D. 3r–242, the Court stated, where from the inception of litigation, defendant was on notice that certain records it possessed were relevant to the litigation or at least reasonably calculated to lead to the discovery of admissible evidence, but nonetheless destroyed those and other relevant records, plaintiff was entitled to award of monetary sanctions. Fed. Rules Civ. Proc., Rule 37(b).

[7] The failure of Respondent to produce the original of certain outgoing mail logs necessitated, and appropriately so, the reliance upon the incomplete copies (GX–14) as probative evidence by the Solicitor.

As for the testimony of Respondent's employees, it was the ALJ who observed the witnesses in this case. Hence, the ALJ is the one who had to judge the credibility of the witnesses. Since the inception of our U.S. legal system, triers of fact have been known to accord little weight or no weight whatsoever to testimony of some or all of the witnesses produced by one side in a lawsuit. As the reviewing authority who was not present to judge the credibility of the witnesses, I must defer to judgments made in this regard by the ALJ.

FINDINGS OF FACT

1. Arthur O. Klein, Respondent, is an attorney registered to practice before the Patent and Trademark Office (PTO), registration number 19102.

I. The ROMER Application

2. Respondent was attorney of record in patent application Serial No. 06/67,143, in the name of Romer et al.
3. The PTO notified Respondent that payment of the base issue fee was due on or before June 2, 1981, and the base issue fee was received in the PTO on June 2, 1981.
4. An Amendment (Response I), due on or before the date the issue fee was to be paid under C.F.R. §1.312, signed by Respondent and accompanied by a certificate of mailing (also signed by Respondent), was received in the PTO on July 2, 1981 — 30 days after the date on the certificate of mailing and due date for Response.
5. The certificate of mailing represented that Response I was mailed to the PTO on June 2, 1981.
6. The PTO mailroom date of receipt of July 2, 1981, is accurate.
7. Respondent knew or should have known that Response I was mailed to the PTO after June 2, 1981, and was not deposited in the mail on June 2, 1981.

II. The STOEV Application

8. Respondent was attorney of record in patent application Serial No. 06/198,861, in the name of Stoev et al.
9. The PTO notified Respondent that Response II, petition to extend time, and appropriate fee were due on or before Nov. 23, 1982.
10. A petition to extend time and Response II, signed by Respondent and accompanied by a certificate of mailing (also signed by Respondent), were received in the PTO on Dec. 2, 1982 — nine (9) days after the date on the certificate of mailing and due date for Response.
11. The certificate of mailing represented that Response II was mailed to the PTO on Nov. 23, 1982.
12. The PTO mailroom date of receipt of Dec. 2, 1982, is accurate.
13. Respondent knew or should have known that Response II was mailed to the PTO after Nov. 23, 1982, and was not deposited in the mail on Nov. 23, 1982.

III. The PRASIL Application

14. Respondent was attorney of record in patent application Serial No. 06/199,501, in the name of Prasil et al.
15. The PTO notified Respondent that Response III, petition to extend time, and appropriate fee were due on or before Jan. 14, 1983.
16. A petition to extend time and Response III, signed by Respondent and accompanied by a certificate of mailing (also signed by the Respondent), were received in the PTO on Jan. 27, 1983 — 13 days after the date on the certificate of mailing and due date for Response.
17. The certificate of mailing represented that Response III was mailed to the PTO on Jan. 14, 1983.
18. The PTO mailroom date of receipt of Jan. 27, 1983, is accurate.
19. Respondent knew or should have known that Response III was mailed to the PTO after Jan. 14, 1983, and was not deposited in the mail on Jan. 14, 1983.
20. The PTO sent Respondent Requirement for Information A on June 11, 1984, questioning Respondent about mail log date entries.
21. Requirement A stated:

> 2. The copy of the page from the mail log attached to question 1 of the last Requirement for Information raises some questions. At the top of the page is the heading "Jan. 14, 1983" and listed thereunder are two entries, each with a later date in January 1983. At the bottom there is an item identified as "Customer's Receipt Number."
>
> a. For each entry, what is the significance of the particular January date (other than Jan. 14, 1983)?

Respondent's response filed on July 9, 1984, answered:

> 2(a). In the fourth line of the page of the mail-log there is the date Jan. 21, 1983. And in the tenth line of the mail-log there is the date Jan. 27, 1983. These dates refer to the dates the items were received by the Patent and Trademark Office according to our return postcard.

22. It was represented the practice at Klein and Vibber during 1981–1983 was to enter the firm's return-receipt postcard date as the second date entered in the mail logs.
23. Respondent's answer that the date of Jan. 21, 1983, in the mail log refers to the date the item was received in the PTO is not only erroneous, but no item listed in entry (1) of mail log A was received in the PTO on Jan. 21, 1983.
24. Respondent knew or should have known that his answer in Requirement A was false. Respondent made certain statements, material to the inquiry, in answer to the Requirement for Information. The correct response, however, would have been substantially different from what he represented. Since it was within his ability to know and he was obligated to know the accurate answer, Respondent made a false representation.

IV. The BLOMENROEHR Application

25. Respondent was attorney of record in patent application Serial No. 06/238,372, in the name of Blomenroehr.
26. The PTO notified Respondent that Response IV was due on or before Feb. 22, 1983.
27. Response IV, signed by Respondent and accompanied by a certificate of mailing (also signed by the Respondent), was received in the PTO on Mar. 8, 1983 — 14 days after the date on the certificate of mailing and due date for Response.
28. The certificate of mailing represented that Response IV was mailed to the PTO on Feb. 22, 1983.
29. The PTO mailroom date of receipt of Mar. 8, 1983, is accurate.
30. Respondent knew or should have known that Response IV was mailed to the PTO after Feb. 22, 1983, and was not deposited in the mail on Feb. 22, 1983.

V. The REINECKE Application

31. Respondent was attorney of record in patent application Serial No. 06/222,527, in the name of Reinecke et al.

32. The PTO notified Respondent that the Response V was due on or before Feb. 24, 1983.
33. Response V, signed by Respondent and accompanied by a certificate of mailing (also signed by the Respondent), was received in the PTO on Mar. 14, 1983 — 16–18 days after the date on the certificate of mailing and due date for Response.
34. The certificate of mailing represented that Response V was mailed to the PTO on Feb. 24, 1983.
35. The PTO mailroom date of receipt of Mar. 14, 1983, is accurate.
36. Respondent knew or should have known that Response V was mailed to the PTO after Feb. 24, 1983, and was not deposited in the mail on Feb. 24, 1983.

VI. The METZ Application

37. Respondent was attorney of record in patent application Serial No. 06/185,581, in the name of Metz et al.
38. The PTO notified Respondent that Response VI, Notice of Appeal, petition to extend time, and appropriate fee were due on or before Feb. 28, 1983.
39. A petition to extend time for response and appropriate fee were received in the PTO on Feb. 28, 1983, but it was not accompanied by the Notice of Appeal.
40. Response VI, Notice of Appeal, signed by Respondent and accompanied by a certificate of mailing (also signed by the Respondent), was received in the PTO on Apr. 25, 1983 — 54–56 days after the date on the certificate of mailing and due date for Response.
41. The certificate of mailing represented that Response VI (Notice of Appeal) was mailed to the PTO on Feb. 28, 1983.
42. The PTO mailroom date of receipt of Apr. 25, 1983, is accurate.
43. Respondent knew or should have known that Response VI was mailed to the PTO after Feb. 28, 1983, and was not deposited in the mail on Feb. 28, 1983.

VII. The CECH Application

44. Respondent was attorney of record in patent application Serial No. 06/190,730, in the name of Cech et al.
45. The PTO notified Respondent that Response VII, petition to extend time, and appropriate fee were due on or before Mar. 14, 1983.
46. A petition to extend time for response and appropriate fee were received in the PTO on Mar. 10, 1983, but it was not accompanied by the Notice of Appeal.
47. Response VII, Notice of Appeal, signed by Respondent and accompanied by a certificate of mailing (also signed by the Respondent), was received in the PTO on Mar. 28, 1983 — 12–14 days after the date on the certificate of mailing and due date for Response.
48. The certificate of mailing represented that Response VII was mailed to the PTO on Mar. 14, 1983.
49. The PTO mailroom date of receipt of Mar. 28, 1983, is accurate.
50. Respondent knew or should have known that Response VII was mailed to the PTO after Mar. 14, 1983, and was not deposited in the mail on Mar. 14, 1983.

VIII. The MENGES Application

51. Respondent was attorney of record in patent application Serial No. 06/255,843, in the name of Menges et al.
52. The PTO notified Respondent that Response VIII was due on or before Mar. 16, 1983.
53. Response VIII, signed by Respondent and accompanied by a certificate of mailing (signed by the Respondent's secretary, Brigitte Metzler), was received in the PTO on Apr. 11, 1983 — 24–26 days after the date on the certificate of mailing and due date for Response.
54. The certificate of mailing represented that Response VIII was mailed to the PTO on Mar. 16, 1983.
55. The PTO mailroom date of receipt of Apr. 11, 1983, is accurate.
56. Respondent knew or should have known that Response VIII was mailed to the PTO after Mar. 16, 1983, and was not deposited in the mail on Mar. 16, 1983.

IX. The SAMSINAKOVA Application

57. Respondent was attorney of record in patent application Serial No. 06/251,924, in the name of Samsinakova et al.
58. The PTO notified Respondent that Response IX was due on or before Mar. 30, 1983.
59. A petition to extend time and Response IX, signed by Respondent and accompanied by a certificate of mailing (also signed by the Respondent), were received in the PTO on Apr. 7, 1983 — 8 days after the date on the certificate of mailing and due date for Response.
60. The certificate of mailing represented that Response IX was mailed to the PTO on Mar. 30, 1983.
61. The PTO mailroom date of receipt of Apr. 7, 1983, is accurate.
62. Respondent knew or should have known that Response IX was mailed to the PTO after Mar. 30, 1983, and was not deposited in the mail on Mar. 30, 1983.
63. The PTO sent Respondent **Requirement for Information B** on Dec. 14, 1983, questioning Respondent about mail log date entries.
64. Requirement B stated:

> 2. The copy from the page from the mail log attached in response to question 4 of the last Requirement for Information raises some questions. At the top of the page is the heading "Mar. 30, 1983 Certificate of Mailing" and listed thereunder are four entries, each with a date in April, 1983.
>
> a. Does the above-mentioned heading indicate that all four entries were mailed to the PTO with a certificate of mailing of Mar. 30, 1983? If not, what does the heading refer to?
>
> b. For each entry, what is the significance of the particular April date?

Respondent's response filed July 9, 1984, answered:

> 2(a). Yes.
>
> 2(b). In each case the date in April refers to the date when the item was received by the Patent Office according to our return postcard.

65. It was the practice at Klein and Vibber during 1981–1983 to enter the firm's return-receipt postcard date as the second date entered in the mail logs.
66. Respondent's answer that the four entries under the heading "Mar. 30, 1983," were mailed with certificates of mailing was false, since only item 4 was mailed with a certificate of mailing.
67. Respondent's answer that the April, 1983 dates in the mail log refer to the date the items were received in the PTO is not only false but none of the items listed in entries (1), (2), and (3) of mail log B was received in the PTO on the April dates listed therein.

68. Respondent knew or should have known that his answers in Requirement B were false. Respondent made certain statements, material to the inquiry, in answer to the Requirement for Information. The correct responses, however, would have been substantially different from what he represented. Since it was within his ability to know and he was obligated to know the accurate answer, Respondent made a false representation.

X and XI. The KLINKHARDT Application

69. Respondent was attorney of record in patent application Serial No. 06/257,263, in the name of Klinkhardt et al.
70. The PTO notified Respondent that Response X, petition to extend time, and appropriate fee were due on or before Apr. 8, 1983.
71. A petition to extend time (Response X), signed by Respondent and appropriate fee accompanied by a certificate of mailing (also signed by the Respondent), were received in the PTO on May 18, 1983 — 40 days after the date on the certificate of mailing and due date for Response.
72. The certificate of mailing represented that Response X was mailed to the PTO on Apr. 8, 1983.
73. The PTO mailroom date of receipt of May 18, 1983, is accurate.
74. Respondent knew or should have known that Response X was mailed to the PTO after Apr. 8, 1983, and was not deposited in the mail on Apr. 8, 1983.
75. Response XI, in the form of an amendment to the Klinkhardt application, was due on or before Apr. 8, 1983, after a one month of extension of time.
76. Response XI, signed by Respondent and accompanied by a certificate of mailing (signed by Respondent's secretary, Brigitte Metzler), was received in the PTO on Apr. 18, 1983 — 8–10 days after the date on the certificate of mailing and due date for Response.
77. The certificate of mailing represented that Response XI was mailed to the PTO on Apr. 8, 1983.
78. The PTO mailroom date of receipt of Apr. 18, 1983, is accurate.
79. Respondent knew or should have known that Response XI was mailed to the PTO after Apr. 8, 1983, and was not deposited in the mail on Apr. 8, 1983.

CERTIFICATES OF MAILING

80. By representing or allowing a member of his staff to represent that Responses I–XI were mailed on certain dates to the PTO when, in fact, he knew or should have known these Responses were deposited in the mail after the dates represented, Respondent willfully engaged in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1-102(A)(4) of the Code of Professional Responsibility of the American Bar Association (1970), and willfully failed to comply with the "candor and good faith" standard established by the Supreme Court in *Kingsland* v. *Dorsey*, 338 U.S. 318, 319 (1949) and the duty of candor and good faith toward the PTO as required by 37 C.F.R. §1.56.
81. By mailing, causing, or allowing to be mailed to the PTO Responses I–XI after the due dates for Responses (the dates to prevent the corresponding applications from becoming abandoned), Respondent neglected legal matters entrusted to him, in violation of 37 C.F.R. §1.344 and DR 6-101(A)(3) of the Code of Professional Responsibility of the American Bar Association (1970).

REQUIREMENTS FOR INFORMATION

82. By answering in Requirement for Information A that the mail log entry dates refer to the dates the items were received in the PTO according to the return-receipt postcards, when Respondent knew or should have known that this answer was false, Respondent willfully engaged in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1-102(A)(4) of the Code of Professional Responsibility of the American Bar Association (1970), and willfully failed to comply with the "candor and good faith" standard established by the Supreme Court in *Kingsland* v. *Dorsey*, *supra*, and the duty of candor and good faith toward the PTO as required by 37 C.F.R. §1.56.
83. By answering in Requirement for Information B that the mail log entry dates refer to the dates the items were received in the PTO according to the return-receipt postcards and that the listed items were mailed with certificates of mailing when Respondent knew or should have known that these answers were false, Respondent willfully engaged in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1.102(A)(4) of the Code of Professional Responsibility of the American Bar Association (1970), and willfully failed to comply with the "candor and good faith" standard established by the Supreme Court in *Kingsland* v. *Dorsey*, *supra*, and the duty of candor and good faith toward the PTO as required by 37 C.F.R. §1.56.

In arriving at the above findings, I have thoroughly reviewed the Recommended Decision of Administrative Law Judge Dolan and have carefully considered the evidence, the Respondent's and the Solicitor's exhibits and the testimony upon which it is based. Recognition and due consideration have been given to Respondent's many years of practice before the Patent and Trademark Office.

Based on this record, I adopt and incorporate herein by reference the Recommended Decision with slight modification to the findings, *supra*, and adopt as the ultimate finding that Respondent willfully engaged in dishonesty, fraud, deceit and misrepresentation. He also neglected legal matters entrusted to him, all in violation of 37 C.F.R. §1.344 and DR 1-102(A)(4) and DR 6-101(A)(3), respectively, of the Code of Professional Responsibility of the American Bar Association (1970) as charged in count 2 and willfully violated the duty of candor and good faith required under 37 C.F.R. §1.56, with respect to each of the charges in counts 1, 3, and 4 established here.

The Respondent did consciously allow his submissions to be sent late and backdated. Once the contract courier was missed, because his submissions were not ready, some of the mailings were put off. Delay and falsification of dates became something of a habit for his filings. The attempted coverup which led to the false responses to the subsequent legitimate inquiries by the Patent and Trademark Office reveal an intolerable attitude and continuing pattern of misconduct.

Arthur O. Klein of New York City, N.Y., and Westport, Conn., whose Patent Office attorney registration number is 19102, is suspended from practice as an attorney before the United States Patent and Trademark Office under the provisions of Section 32 of Title 35, U.S. Code, and Section 1.348, Title 37 of the Code of Federal Regulations, for the period of seven (7) years; execution of the last five (5) years is suspended and Respondent is being placed on probation for those five (5) years on each count (counts 1–4). The sanctions imposed for each count are to run concurrently. The terms of probation are:

(i) Respondent shall comply with all disciplinary rules applicable to patent attorneys and agents

practicing before the Patent and Trademark Office.

(ii) No document in any patent or trademark application can be filed in the Patent and Trademark Office by or on behalf of Respondent which (a) uses a certificate of mailing under 37 C.F.R. §1.8, and (b) which indicates on the document that the document was prepared by, worked on, or signed by or on behalf of, Respondent.

After the first two (2) years of the seven (7)-year suspension and subject to the probationary five (5)-year period, Respondent may be reinstated to practice before the Patent and Trademark Office in patent cases upon compliance with the requirements of 37 C.F.R. §10.160.[8] Respondent may or may not be required by the Director of Enrollment to take an examination.

No application for readmission shall be considered in less than two (2) years from the effective date of this Decision.

The effective date of this Decision is set for thirty (30) days from Decision date or, if appealed and sustained, thirty (30) days following exhaustion of such appeal process.

Oct. 19, 1987.

DONALD W. PETERSON,
Deputy Assistant Secretary and Deputy Commissioner of Patents and Trademarks.

PRELIMINARY STATEMENT

This is a disciplinary proceeding initiated against Arthur O. Klein, an attorney currently registered to practice before the United States Patent and Trademark Office (PTO), registration number 19102. The proceeding is brought under 35 U.S.C. §32 and the regulations promulgated thereunder, 37 C.F.R. Part 1.

The Respondent is charged in the Notice of Proceeding dated Aug. 17, 1984, with four counts of alleged misconduct arising out of the handling of eleven papers in ten separate patent applications, in violation of 37 C.F.R. §§1.344 and 1.56, DR 1-102(A)(4), and DR 6-101(A)(3) of the Code of Professional Responsibility of the American Bar Association (1970) (the Code). The Solicitor seeks to have Respondent suspended or excluded from further practice before the PTO. A hearing was requested by Respondent and held at two locations. On June 24-25, 1985, in Arlington, Va.; on June 26-28, 1985, in New York City, N.Y.; and on July 1, 2, and 15, 1985, and Mar. 26, 1986, in Arlington, Va.*

FACTS

In summary, the Government contends that Respondent backdated submissions and mailing dates, thereby representing that his filings under the PTO honor system were timely when, according to agency counsel, they were, in fact, late. The Respondent contends that all filings were timely and that any recorded delays were due to the Postal Service and PTO mailroom delays.

I. Romer Application

The PTO sent Respondent a "Notice of Allowance and Base Issue Fee Due" dated Mar. 2, 1981, informing him that the base issue fee was due within 3 months, on or before June 2, 1981. A check for the base issue fee and a transmittal letter were sent with Respondent's courier service on June 2, 1981, and received in the PTO[1/] on June 2, 1981.

Under 37 C.F.R. §1.312, amendments to a patent application may not be made later than the date the base issue fee is paid without withdrawing the case from issue; therefore, any amendments in the Romer application were due on June 2, 1981. An amendment (Response I) signed by the Respondent and accompanied by a certificate of mailing[2/] was received in the PTO on July 2, 1981 — a 30-day difference between the date on the certificate of mailing and the PTO receipt date.

II. Stoev Application

The PTO notified Respondent in an Office Action[3/] dated June 23, 1982, that a Response was due within 3 months, on or before Sept. 23, 1982. Before the expiration of the above date, Respondent requested and was granted a 1-month extension until Oct. 23, 1982, for filing a Response.[4/] The period could be further extended to Nov. 23, 1982, if the Response, petitition to extend time, and appropriate fee were filed by Nov. 23, 1982. A petition to extend time, notice of appeal (Response II) signed by Respondent, and appropriate fee, accompanied by a certificate of mailing, were received in the PTO on Dec. 2, 1982 — a 9-day difference between the date on the certificate of mailing and the PTO receipt date.

* The testimony from the hearing in this matter is spread through 8 volumes of transcripts consisting of some 1623 pages. References to the transcripts are in chronological order, I-VIII.

Solicitor's Exhibits will be referred to with the prefix "GX-" and Respondent's Exhibits will be referred to with the prefix "RX-."

1/ The term "received in the PTO" signifies the document was delivered to the PTO in accordance with 37 C.F.R. §1.6 and was date stamped.

2/ Although Respondent objected to identifying his signature on Fifth Amendment grounds (I-134), during the hearing he testified to his signature on all the Responses stating that he had no independent recollection of signing the documents but believes his signature appears on all of them. (I-140-9).

3/ An Office Action is a communication sent by the PTO to the applicant or his counsel stating the grounds of the PTO's rejection of a patent application or indicating requirements that must be complied with before a patent application would be further considered. An Office Action sets a date for a response.

4/ On Oct. 1, 1982, the PTO regulations governing petitions for extensions of time, 37 C.F.R. §1.136, were amended to allow for obtaining such extensions by paying the appropriate fee.

III. Prasil Application

The PTO notified Respondent in an Office Action dated Sept. 14, 1982, that a Response was due within 3 months, on or before Dec. 14, 1982. The period for Response could be extended to Jan. 14, 1983, if the petition to extend time and appropriate fee were filed by Jan. 14, 1983. A petition to extend time and notice of appeal (Response III) signed by Respondent, accompanied by a certificate of mailing, were received in the PTO on Jan. 27, 1983 — a 13-day difference between the date on the certificate of mailing and the PTO receipt date.

The PTO sent a Requirement for Information (Requirement A) to Respondent dated Dec. 14, 1983. Respondent filed a response dated Jan. 5, 1984, which referred to a "mail log." (GX-38 at 013-4, GX-39 at 014-5). A second Requirement of Information was sent requesting copies of the mail log notation. Respondent filed a response enclosing a page from the mail log dated Jan. 14, 1983. A Further Requirement for Information dated June 11, 1984, was sent, which stated:

> 2. The copy of the page from the mail log attached to question 1 of the last Requirement for Information raises some questions. At the top of the page is the heading "Jan. 14, 1983" and listed thereunder are two entries, each with a later date in Jan. 1983. At the bottom, there is an item identified as "Customer's Receipt Number."
>
> a. For each entry, what is the significance of the particular January date (other than Jan. 14, 1983)?

Respondent's response filed on July 9, 1984, answered:

> 2(a). In the fourth line of the page of the mail-log there is the date Jan. 21, 1983. And in the tenth line of the mail-log there is the date Jan. 27, 1983. These dates refer to the dates the items were received by the Patent and Trademark Office according to our return postcard.

The item listed in entry (1) of the mail log above, however, was not received in the PTO on Jan. 21, 1983, but on Jan. 14, 1983. (GX-36).

IV. Blomenroehr Application

The PTO notified Respondent in an Office Action dated Nov. 22, 1982, that a Response was due within 3 months, on or before Feb. 22, 1983. An amendment (Response IV) signed by Respondent and accompanied by a certificate of mailing was received in the PTO on Mar. 8, 1983 — a 14-day difference between the date on the certificate of mailing and the PTO receipt date.

V. Reinecke Application

The PTO notified Respondent in an Office Action dated Nov. 24, 1982, that a Response was due within 3 months, on or before Feb. 24, 1983. An amendment (Response V) signed by Respondent and accompanied by a certificate of mailing was received in the PTO and date stamped Mar. 14, 1983 — a 16-18-day difference[5/] between the date on the certificate of mailing and the PTO receipt date.

VI. Metz Application

The PTO notified Respondent in an Office Action dated Aug. 31, 1982, that a Response was due within 3 months, on or before Nov. 30, 1982. The period for Response could be extended for 3 months to Feb. 28, 1983, if the petition to extend time and appropriate fee were filed by Feb. 28, 1983. Since this petition to extend time would exhaust the number of allowable extensions, the Response to the Office Action would also be due on Feb. 28, 1983. A petition to extend time was received in the PTO on Feb. 28, 1983, but the notice of appeal to the Office Action was not mailed with the petition in the same envelope. The notice of appeal (Response VI) signed by Respondent and accompanied by a certificate of mailing was received in the PTO on Apr. 25, 1983 — a 54-56 day difference between the date on the certificate of mailing and the PTO receipt date.

VII. Cech Application

The PTO notified Respondent in an Office Action dated Sept. 14, 1982, that a Response was due within 3 months, on or before Dec. 14, 1982. The period for Response could be extended for 3 months to Mar. 14, 1983, if the petition to extend time and appropriate fee were filed by Mar. 14, 1983. Since this petition to extend time would exhaust the number of allowable extensions, the Response to the Office Action would also be due on Mar. 14, 1983. A petition to extend time was received in the PTO on Mar. 10, 1983, but the notice of appeal to the Office Action was not mailed with the petition in the same envelope. The notice of appeal (Response VII) signed by Respondent and accompanied by a certificate of mailing was received in the PTO on Mar. 28, 1983 — a 12-14-day difference between the date on the certificate of mailing and the PTO receipt date.

VIII. Menges Application

The PTO notified Respondent in an Office Action dated Dec. 16, 1982, that a Response was due within 3 months, on or before Mar. 16, 1983. An amendment (Response VIII) signed by Respondent and accompanied by a certificate of mailing signed by one of Mr. Klein's secretaries was received in the PTO on Apr. 11, 1983 — a 24-26-day difference between the date on the certificate of mailing and the PTO receipt date.

IX. Samsinakova Application

The PTO notified Respondent in an Office Action dated Nov. 30, 1982, that a Response was due within 3 months, on or before Feb. 28, 1983. The period for response could be extended to Mar. 30, 1983, if a petition to extend time and appropriate fee were filed with the PTO by Mar. 30, 1983. A petition to extend time, appropriate fee, and an amendment (Response IX) signed by Respondent and accompanied by a certificate of mailing were received in the PTO on Apr. 7, 1983 — an 8-day difference between the date on the certificate of mailing and the PTO receipt date.

The PTO sent Respondent a Requirement for Information (Requirement B) dated Dec. 14, 1983. Respondent filed a response dated Jan. 5, 1984, which referred to a "mail log." A second Requirement for Information was sent requesting a copy of the "mail log notation." Respondent filed a response enclosing a page from the mail log. (RX-432) A further Requirement for Information was sent which stated:

> 2. The copy from the page from the mail log attached in response to question 4 of the last Requirement for Information raises some questions. At the top of the page is the heading "Mar. 30, 1983 Certificate of Mailing" and listed thereunder are four entries, each with a date in April, 1983.
>
> a. Does the above-mentioned heading indicate that all four entries were mailed to the PTO with a certificate of mailing of Mar. 30, 1983? If not, what does the heading refer to?
>
> b. For each entry, what is the significance of the particular April date?

[5/] This is the first of the several Responses with a 3-day variance receipt date. Since the PTO receipt date in these situations is a Monday, or a Tuesday following a Monday holiday, the variance reflects the possibility that the Responses would have been received on the previous Saturday if the PTO were open for business that day. (VIII-39-40)

Respondent's response filed on July 9, 1984, answered:

> 2(a). Yes.
> 2(b). In each case the date in April refers to the date when the item was received by the Patent Office according to our return postcard.

The documents themselves and the other evidence of record reflect that none of the items, however, listed in entries (1), (2), and (3) of the mail log was mailed to the PTO with certificates of mailing. (GX-37).

X and XI. Klinkhardt Application

The PTO notified Respondent in an Office Action dated Dec. 8, 1982, that a Response was due within 3 months, on or before Mar. 8, 1983. The period for Response could be extended to Apr. 8, 1983, if a petition to extend time and appropriate fee were filed with the PTO by Apr. 8, 1983. A petition to extend time, appropriate fee, and Response (X) signed by Respondent and accompanied by a certificate of mailing were received in the PTO on May 18, 1983 — a 40-day difference between the date on the certificate of mailing and the PTO receipt date.

Any amendments to the application would also be due by Apr. 8, 1983. An amendment (Response XI) signed by Respondent and accompanied by a certificate of mailing signed by one of Mr. Klein's secretaries was received in the PTO on Apr. 18, 1983 — an 8-10-day difference between the date on the certificate of mailing and the PTO receipt date.

DISCUSSION

Government asserts in Count I that by representing, or allowing another to represent, that Responses I-XI were mailed to the PTO on certain dates when Respondent knew or should have known that the Responses were in fact mailed to the PTO after the represented dates, Respondent did willfully engage in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1-102(A)(4) of the Code, and failed to comply with the "candor and good faith standard" as stated by the Supreme Court in *Kingsland* v. *Dorsey*, 338 U.S. 318, 319 (1949), in violation of the "duty of candor and good faith" required of attorneys under 37 C.F.R. §1.56. In Count II, Government claims that in mailing the Responses after the due dates, Respondent neglected legal matters entrusted to him, in violation of 37 C.F.R. §1.344 and DR 6-101(A)(3) of the Code. Government charges in Counts III and IV that Respondent falsely answered Requirements for Information A and B in violation of 37 C.F.R. §1.344 and DR 1-102(A) and the candor and good faith standard stated in *Kingsland* v. *Dorsey*, *supra*, and required under 37 C.F.R. §1.56.

Respondent claims his office and mailing procedures, which will be discussed in more detail, ensure that all PTO due dates are diligently met, and that when he signed the certificates of mailing, he had a reasonable basis to expect that the correspondence would be mailed on the dates indicated on the respective certificates of mailing. He contends, therefore, that any delays which occurred were the result of miscarriages in service by the Postal Office or erroneous PTO mailroom date stamping. Respondent avers that when Requirements A and B were answered, Klein & Vibber's office mailing procedures were thoroughly reviewed and the information supplied to the PTO was correct to the best of Respondent's knowledge at the time of the submission.

This long and cumbersome proceeding revolves primarily around Respondent's office mailing practices, the reliability of the U.S. Postal Service, and date stamping procedures of the PTO mailroom.

I. Klein & Vibber Office Practices

Both sides presented lengthy testimony and numerous exhibits relating to the docketing and mailing practices of Klein & Vibber. Office personnel were represented as cognizant of the importance of PTO due dates. Respondent represented that various "reminder" mechanisms and back-up systems to herald the approach of due dates existed over the past few years. At least three successive junior associates at Klein & Vibber formulated and were primarily responsible for reminders, recordkeeping, and outgoing mail from Klein & Vibber to the PTO. The first of the former attorneys responsible for such oversight testified that PTO papers were correctly prepared and packaged and return-receipt postcards included[6/] in order to determine if the PTO received the papers.[7/] (V-139, III-104) Mr. Klein's secretary, who appears to also have office management responsibility, testified the firm sends papers to the PTO on the same date the papers are signed[8/] (IV-13), and a postage meterstrip is applied at the firm to envelopes on the same date the envelopes are mailed. (IV-174)

The firm maintains an outgoing mail log wherein entries daily are made of PTO papers sent from the firm.[9/] The first of the attorneys responsible for the mail log testified that originally only entries of those papers sent by their courier[10/] were made, since he believed photocopies of the firm's certificates of mailing were sufficient. (V-139, 142) He testified that the date of the firm's receipt of the return-receipt postcard was the correct entry date into the log and instructed his successor in this practice. (V-137-8, 140, 142-3)

Although the originals of Klein & Vibber's mail logs were requested, Respondent instead supplied copies of some of the outgoing mail log pages (GX-14) and the covers of the original volumes. (GX-50) Absent are the originals of the outgoing volumes inclusive of Responses I-XI. Failure to produce the originals is lamentable and not excused. Respondent's counsel represented at the hearing that the documents may have been lost in Klein & Vibber's then-recent move to a new location; however, since these documents were requested as early as Nov. 19, 1984 (Solicitor's First Formal Request for Production of Documents, Nov. 19, 1984), and an Order was entered on May 24, 1985, special care should have been taken to ensure the safeguarding of these documents. Many of the copies are illegible or difficult to decipher. Moreover, it is highly suspicious that among the copies provided, relevant log pages are missing.[11/]

Nevertheless, even the copies provided demonstrate irregularities in the mailings of Responses I-XI. In 45 of the 56 papers involved, which are not subject to charges of wrongdoing, the second entry date is a date *after* the PTO receipt date.[12/] Government Exhibit 47 reveals that this second date entry is the Klein & Vibber postcard receipt date. The entries, however, for Responses I-XI stand in mute contrast to those of the 45 other papers.

6/ Klein & Vibber, as well as most firms that correspond with the PTO, include return-receipt postcards with filings that must meet PTO deadlines. This provides a record of the date of receipt in the PTO.

7/ Mr. Klein's secretary testified that it is the general practice of the firm to include return-receipt postcards with papers filed in the PTO (III-104) and when they are returned, to put them into the clients' respective files. (III-131-2) Nonetheless, although Respondent claims to have searched for them, return-receipt postcards for Responses II, IV, X, and XI are missing.

8/ In Requirement B, however, the item in entry (3), a patent amendment, had a typed date different from the date the firm's mail log indicates it was mailed. (GX-37 at 009) Mr. Klein's secretary's testimony was contradicted in significant particulars. *See* testimony regarding the general practice of the firm regarding certificates of mailing, *infra*, at 16; testimony regarding Mr. Klein's secretary's identity of the author of the mail log entry in Response III, *infra*, at 9, note 13; evidence of checks sent to the PTO, *infra*, at 11.

9/ Two attorneys testified that occasionally other firm members would make entries into the log. (V-114-6, 142-3, 157)

10/ Klein & Vibber maintained the use of a commercial courier same-day mailing service until Mar. 18, 1983.

11/ *See* GX-14. Fifteen out of 80 pages are absent.

12/ See GX-14; 15, 16.

In Responses III,[13] VIII, and IX,[14] the second entry date is the PTO receipt date rather than the Klein & Vibber return-receipt postcard date. For Responses VI, X, and XI, there simply are no second date entries. There are no indicia in the mail logs that the papers in Responses IV and VII had even been mailed to the PTO nor was any copy provided of the outgoing mail log pages for the date Response V was allegedly mailed. Although the firm stopped using their courier service on Mar. 18, 1983, the entry dates for the three Responses mailed thereafter (Responses IX, X, 11) are the last entries on the respective pages. This might be expected while the firm was using their courier service, however, it is less likely that the outgoing date entries would continue to appear as the last entry on the page.

When questioned about the appearance of two different log dates for the return-receipt postcards, the first of the firm's junior associates testified it is possible that other firm members, including himself, may have written into the mail log the PTO receipt date rather than the Klein & Vibber receipt date. (V-162)

Respondent maintains that his client correspondence indicates that the papers involved were mailed on the dates appearing on the respective certificates of mailing. Mr. Klein's secretary testified that it was the general practice at Klein & Vibber when filing papers in the PTO to inform clients of this by letter on the same day or sometimes after Responses are filed. (IV-16-7, 161) Only in Responses V and VIII, however, did the correspondence contain the same date as the one appearing on the certificate of mailing accompanying the PTO filings. In eight other instances they were dated later.[15] This hardly reflects a "practice" of same-day transmittal! Moreover, what Respondent told his clients were the mailing dates is not as significant or reliable as when the letters were actually mailed.[16]

In the Requirement for Information A and B in the Prasil and Samsinakova applications, respectively, Respondent stated that the entry dates in the mail logs refer to the PTO receipt date. The entry date to item (1) in Requirement A, however, does not reflect the PTO receipt date. (GX-38, 36) In Requirement B, Respondent answered that the four items in the mail log in question were mailed with certificates of mailing; however, items 1, 2, 3 were not mailed with certificates of mailing. (GX-37)

Respondent claims the associate attorney currently responsible for the mail log and record keeping with the firm assisted him in responding to the Requirement for Information and researching the factual aspects of the questions. (IV-192) That attorney avers he thoroughly reviewed the office files and outgoing mail logs, and questioned the secretarial staff about office procedure. (IV-192-4) He testified that it was his understanding and belief that the date entered into the firm's outgoing mail log was the PTO receipt date. (IV-206) He testified that he never noticed the distinction between the PTO receipt date and the Klein & Vibber return-receipt postcard date until, upon receiving the Notice of Proceeding, he became aware that this was an issue. (IV-205-6) Thereafter, upon re-checking the postcards against the mail log entries, he discovered the distinction. (IV-208; V-105-6)

That attorney testified that in June and July of 1984 it was his understanding that the Klein & Vibber practice, based on information provided by the firm's personnel on the use of the mail log, was to enter the PTO receipt date as the second entry date. (RX-451) The evidence indicates, however, this had not been the firm's prior practice during the time period relevant to the mailings under consideration here.[17] He further stated that sometime shortly after Aug. 20, 1984, "it became known to him that in 1982 and 1983 some of the entries in the Klein & Vibber outgoing mail log for the PTO's receipt date were entered incorrectly." (RX-451, at 3) It appears he must have been unfamiliar with the very outgoing mail log practices to which he was assigned research responsibility, since the first attorney's testimony reveals that the Klein & Vibber return-receipt postcard date was the mail log entry date. (GX-47, GX-16 at 003-5) As for question 2(a) in Requirement B, Respondent presented no evidence, testimony, or explanation for his erroneous answer.[18]

Klein & Vibber is a small firm and the evidence indicates Respondent was the firm's leading practitioner. (IV-115-20) He cannot reasonably claim he was only generally aware of or imprecisely informed about the outgoing mail log practice, since he himself had made notations in it and had made it a practice to spot check or review entries. (GX-38 at 016-7; V-111)

Respondent claims since it is relatively easy and inexpensive to obtain extensions of time from the PTO, he would have no motivation to backdate the certificates of mailing. Not only were further extensions of time not possible for Responses I, VI, and VII, the fact that an attorney may file for extensions and pay a fee is peripheral to this case: the question here is whether the representation made in what is essentially an honor system that certain acts were performed in a timely fashion were, in fact, so performed. Whether the act need not have been executed at that particular time or whether a further extension could have been granted goes to the circumstances.

II. Checks and Check Writing Practices of Klein & Vibber

On Mar. 26, 1986, the hearing record was reopened, over the vigorous objection of Respondent, for the limited purpose of introducing evidence regarding the Klein & Vibber checks which accompanied Responses II, III, VII, and IX.[19]

When Government exhibits 58-61 and Respondent's exhibits 10A, part A & B, are considered together, they constitute a more complete compilation of the checks Klein & Vibber used in business transactions with the PTO from Oct. 7, 1982, to Dec. 29, 1983. The checks in RRX-10 reflect that they were used in numerical order generally corresponding with chronological order. The dates of the checks accompanying Responses II, II, VII, and IX, however, are out of chronological order when compared with the dates of the checks which bracket them. In Response II, the two pertinent checks are numbered 1181 and 1182 and are dated Nov. 23, 1982. The three preceding checks numbered 1176-1178[20] are dated from Nov. 26, 1982, to Nov. 29, 1982. Since the three checks numerically subsequent to check numbers 1181 and 1182 are dated in chronological order on Nov. 29,

[13] The second junior member of the firm had primary responsibility for mail log entries during the time period of Response III; however, the handwriting for the Jan. 27, 1983, second date entry (Response III) does not at all resemble his handwriting (RX-382; GX-14) despite testimony by Mr. Klein's secretary that the entry was made by that member. (IV-158-9)

[14] These are the Responses in which Respondent was queried in the various PTO Requirement for Information. (GX-38, 39, 40)

[15] No evidence of a letter to a client was offered in Response IV. The letter referring to Response X is discussed *infra* at 13.

[16] Respondent also relies on evidence of his European trip to bolster his argument that, at least with regard to Response I, the June 2, 1981, date represented on the certificate of mailing is correct. The PTO date of receipt for Response I is July 2, 1981. The evidence indicates Respondent commenced his trip on June 9, 1981. Although there is no evidence indicating the date of Respondent's return, his conversations held with the Patent examiner regarding Response I during the weeks of June 29, 1981 and July 6, 1981 (RX-364, 365, 366) and his itinerary (RX-370) point to a return date around June 29, 1981. Had Respondent's flight record and passport been introduced, the precise date of his return would probably have been shown. None of Respondent's evidence contradicts a mailing date of a few days before July 2, 1981.

[17] *See* testimony, *supra* at 8 (V-140, 143-4, 154).

[18] *See* discussion of this Requirement, *supra* at 6.

[19] The issue of the check accompanying Response X was addressed during the main hearing and will be discussed in this section.

[20] Check numbers 1179 and 1180 are shown as missing on RRX-10A.

and 1182 are dated in chronological order on Nov. 29, 1982[21], it appears that check numbers 1181 and 1182 were actually made out on Nov. 29, 1982. Moreover, Nov. 29, 1982, is the date of the letter in which Respondent informed his client that Response II had been sent to the PTO. (RX-375)

In Response III, the pertinent check is numbered 1237 and dated Jan. 14, 1983. The fourteen preceding checks numbered 1221 to 1236[22] are dated from Jan. 8, 1983, to Jan. 24, 1983. Since the eight checks numerically subsequent to check number 1237 are all dated in chronological order from Jan. 25, 1983, to Jan. 31, 1983, it appears that check number 1237 was actually made out on Jan. 24, 1983, or Jan. 25, 1983. Moreover, Jan. 25, 1983, is the date of the letter in which Respondent informed his client that Response III had been sent to the PTO. (RX-381)

In Response VII, the pertinent check is numbered 1303 and dated Mar. 14, 1983. The fifteen preceding checks numbered 1288 to 1302 are dated from Mar. 14, 1983, to Mar. 24, 1983. Since the eight checks numerically subsequent to check number 1303 are all dated in chronological order from Mar. 28, 1983, to Mar. 31, 1983, it appears that check number 1303 was actually made out sometime between Mar. 24, 1983, and Mar. 27, 1983. Moreover, Mar. 24, 1983, is the date of the letter in which Respondent informed his client that Response VII had been sent to the PTO. (RX-407)

In Response IX, the pertinent check is numbered 1312 and dated Mar. 30, 1983. The three preceding checks numbered 1309 to 1311 are dated Mar. 31, 1983. Since all the checks subsequent to check number 1312 contain dates from Apr. 4, 1983, on, it appears that check number 1312 was actually made sometime between Mar. 31, 1983 and Apr. 4, 1983. Moreover, Apr. 4, 1983, is the date of the letter in which Respondent informed his client that Response IX had been sent to the PTO. (RX-427)

In Response X, the check is numbered 2833 and dated Apr. 8, 1983. Mr. Klein's secretary testified that one checkbook pre-printed with pay to the order of "Commissioner of Patents and Trademarks" was used for Klein & Vibber's business transactions with the PTO. (IV-109-112, 182-8) Unlike the checks accompanying Responses II, III, VII, and IX, as well as all the other checks sent to the PTO as shown in RRX-10A, check number 2833 is not pre-printed; instead, "Commissioner of Patents and Trademarks" is hand-written. Moreover, check number 2833 is numerically unrelated to the sequence of checks within the Apr. 8, 1983, timeframe: the check numbers for the month of April range from 1313 to 1345. It is evident that check number 2833 was taken from a check book different from the pre-printed one used in Klein & Vibber's normal course of business. Only a portion of Respondent's letter to his client dated Apr. 11, 1983 was offered into evidence and contains no reference to Response X or a petition for extension of time. (RX-436(T))[23]

There are fifteen chronologically out of sequence checks, other than the five suspect checks, in the approximately 400 checks sent by Klein & Vibber to the PTO from Oct. 1982 to Dec. 1983.[24] (RRX-10A) Respondent's counsel states that the affidavit of one of Mr. Klein's secretaries indicates that the 27 missing checks from RRX-10A were also chronologically out of sequence; however, there is no representation at all of the date sequencing of the *missing* checks. (RRX-10A, Affidavit at 3) Moreover, of the fifteen, nine are dated later rather than back-dated in relation to the bracketing checks. This is consonant with testimony that the various secretaries kept loose sheets of three checks each in their desks and that sometimes unused checks became "relatively stale." (IV-110-1; RRX-10A, Affidavit at 2) Although Mr. Klein's secretary testified that checks were torn out of the checkbook in a random manner (IV -111), the relatively few out of sequence checks belies "randomness." Further, the dates of every sequence of two or more consecutive checks prepared by Mr. Klein's secretary are in chronological sequence except the five suspect checks. (RRX-10C, Affidavit at 2 and RRX-10A, Ex. 5A and 5B)

Respondent introduced a compilation of checks from Klein & Vibber for the first part of 1984. (RRX-11A and 11B) Although there is a demonstrably significant increase in the percentage of out of sequence check dating, this time period is well after the relevant time period. Also, from May 1983, Respondent was aware that the PTO was investigating his certificate of mailing practice. (GX-33 AND 35).

III. PTO Mailroom Practice

Under 37 C.F.R. §1.8, papers filed in the PTO are considered timely if accompanied by a certificate of mailing stating the date of mail deposit.[25] In Respondent's Responses I-XI, there are substantial delays between the certificates of mailing dates accompanying these papers and the PTO receipt dates.

The supervisor of PTO incoming mail section testified respecting the standardized procedures and actual practices in the PTO mailroom. After the PTO mailroom receives delivery of mail from the U.S. Postal Service, which arrives in bags and trays, the mail is placed in cabinets marked with the Postal Service receipt date. (I-263) When the analysts (mailroom employees) process the mail, they date stamp the mail to correspond to the Post Office receipt date. Cabinets containing mail with receipt dates that are not then being process are locked. (II-338-9) Analysts first process, chronologically, the oldest mail in the cabinets by hand, and date stamp each individual document, one at a time. Before analysts began new date processing, all mail with prior dates are processed and removed from their desks. (I-267-8) Prior to changing the date stamp, analysts first check with the supervisor to make certain the date on their date stamp is correct. The supervisor testified that date stamping is the most important function of the incoming mail section and this fact is stressed to the analysts. After analysts date stamp the incoming mail, fee papers are coded and sent to the PTO's Finance Branch which stamps its processing date on those documents; they are then stamped with a receipt date within a patent examining group, and returned to the mailroom for distribution to the various branches of the PTO.[26] This acts as an internal mechanism to aid in checking dates, since the Finance Branch and other PTO groups, working within the same time frame as the PTO mailroom, will question a date stamp that appears to be outside the correct time frame. (RX-68 at 67) Supervisors also make spot checks of the dates stamped. (I-283-4; RX-68 at 31)

[21] Respondent objects to presenting a sequencing of checks bracketing the suspect check. This method is valid, however, since the survey of several checks numerically prior and subsequent to a suspect check presents a reliable portrayal of chronological sequencing.

[22] Check numbers 1232 and 1235 are shown as missing on RRX-10A.

[23] The letter refers to an "eingabe" which Mr. Klein's secretary testified means "amendment." (IV-45-50)

[24] These fifteen checks are numbered 1171, 1199, 1261, 1263, 1324, 1328, 1362, 1363, 1407, 1409, 1488, 1495, 1512, 1534, and 1568. Respondent claims there are 26 out of sequence checks, but a perusal of RRX-10A reveals only 15 non-sequential checks.

[25] 37 C.F.R. §1.8 was changed to permit the practice of including a certificate of mailing to accompany most papers for timely filing in the PTO. The history of this rule indicates it was changed in part to reassure attorneys in all parts of the country that they would all be in the same position with regard to differences in mailing time. *See* 41 Fed. Reg. 24895 (1976); 41 Fed. Reg. 43720 (1976); 42 Fed. Reg. 2632 (1977); 43 Fed. Reg. 20458 (1978); 47 Fed. Reg. 47380 (1982); and 48 Fed. Reg. 2696 (1983). 37 C.F.R. §1.8 does not extend to filing dates for patent applications, since, as a more critical date than the other filings, the use of Express Mail as the date of deposit with the U.S. Postal Service was seen as less susceptible to misuse than certificates of mailing. 48 Fed. Reg. 2702 (1983).

[26] Non-fee papers are presorted, contain the group stamp date, and are sent directly to the various PTO branches. (I-282-3).

Since the PTO receives approximately 20,000 papers per day and 5,000,000 papers per year, mistakes do occur. (I-298; RX-68 at 40) A log book is kept to record errors made in date stamping in which is entered, with the knowledge of the Supervisor, the date and type of error and the analyst's number.[27/] The erroneously date-stamped mail is then retrieved and the incorrect date cancelled out with a special stamp and restamped with the proper date. The most common date stamp error is the failure to turn the stamp to the next business day.[28/] The supervisor of the incoming mail section stated that most mistakes are discovered before the mail leaves the mailroom. (I-294).

Respondent contends numerous date stamping errors occur in the mailroom, many of which are not reflected in the log book. The log book contains a record of date stamping errors as reported by the analysts. Therefore, the accuracy of the log book is dependent upon the honesty and integrity of the analysts. Respondent claims that the log books are used by the supervisors to evaluate analysts' job performance which relates directly to promotions and performance awards, thereby providing a disincentive for analysts to report such errors.[29/]

Although date stamping errors do occasionally occur and some may pass unnoticed, the evidence is convincing that date stamping errors occur infrequently. The log book entries and testimony of the two supervisory employees reveal that such errors constitute under 1 percent of documents date stamped. (RX-68 at 148, 66A, 67A) The high volume of mail the PTO receives does not induce date stamping errors, since the date stamp is set prior to the processing of the mail received in the PTO on a particular date. Moreover, the analysts' immediate supervisor during the relevant time period and who the mail facility supervisor described as the most knowledgeable person in the incoming mailroom (VI-84), testified she did not consult the log book for evaluation of the analysts. (I-297, II-324-5) Respondent attempts to infer that since two of the analysts who date stamped two of the eleven papers involved in this proceeding had committed prior date stamping errors and had not been promoted or given performance awards, the log book is indeed used to evaluate analysts. The incoming mail supervisor explained, however, that one of the analysts had already been at the highest promotion level and that during the other analyst's time at the PTO, there were no available slots for promotion. (II-375, 390-1) Further, she characterized those analysts as dedicated and qualified employees. (II-463)

The overall evidence adduced from the detailed testimony of knowledgeable persons and the voluminous number of exhibits demonstrate the reliability of the PTO mailroom practices and standardized procedures for accurately date stamping incoming mail. The operation of the PTO mailroom is not found to have contributed to the delays which form the basis of these charges. In fact, the mailroom personnel appear to be extremely diligent and highly successful in their continuing efforts to reliably carry out the important date stamping and other functions of the PTO.

III. Respondent's Certificate of Mailing Practice and Determination of Relevant Data

Until Mar. 18, 1983, the firm of Klein & Vibber used a courier service to deliver papers to the PTO the same day they were picked up at the firm's New York City location. (GX-33) It was the general practice at Klein & Vibber that the only papers not sent by their courier were those not ready by 4 p.m. for their courier to pick up. (GX-33) If a paper was not ready for the courier, it was mailed to the PTO with a certificate of mailing. According to Respondent, some of the documents may have been mailed from one of three locations from Klein & Vibber's Westport, Conn., office. (GX-35)[30/] Mr. Klein's secretary testified that documents were mailed from the New York City firm at a mail box (or collection box) on Madison Ave., between 39th and 40th Sts. (III-110) She further testified that the date under the signature indicates the date the document was mailed.[31/] (III-134-5); IV-27). Respondent asserts that a postage meterstrip was applied at the firm to the envelopes on the same day the envelopes were mailed. (IV-174) Certificates of mailing were signed either by attorneys and agents at Klein & Vibber or the person who mailed the papers. (V-8-10)

The PTO obtained the papers at issue in this proceeding through the PTO's PALM III data base in which, from 1979, relevant information such as attorney registration numbers are entered. (I-71) This is the software program by which information relating to registered patent attorneys and agents is maintained on a current basis. Respondent's secretary testified all patent applications sent by the office of Klein & Vibber are filed with a Combined Declaration and Power of Attorney in Original Application Form which contains Respondent Klein's registration number. (IV-116-8) The PTO relied on the computer printout to prepare its investigation of this case to retrieve papers where it appeared Respondent had power of attorney *and* the papers were accompanied by a certificate of mailing. (I-198)[32/] All patent applications, other than the most recent ones, of Respondent's in the PTO PALM III data base were reviewed, and the oldest certificate of mailing date on a paper purportedly signed by Respondent was June 2, 1981. (GX-3 at 003) Nothing with a PTO mailroom date of receipt later than May 31, 1983 was searched — the time after which Respondent was aware of the PTO's investigation.

A total of 56 papers from Klein & Vibber were found in the PTO record search. (GX-3 and 16 at Annex) Of these, Respondent purportedly signed 25 of the papers while other attorneys or agents at Klein & Vibber signed the remaining 31. Signatures on certificates of mailing were not used as the basis for distinguishing Respondent's papers from those of others at the firm, since, under 37 C.F.R. §1.346, the attorney who signs the patent application papers is the person responsible for those papers.[33/] Respondent's expert witness regarding statistics testified that there are statistical problems in grouping papers signed by Respondent and those signed by others, since both groups contain certificates of mailing signed by Respondent. (VI-100) As agency counsel argues, however, it is highly unlikely that any incentive would exist to back-date a certificate of mailing accompanying papers signed by another attorney and thereby compromise the position of the other attorney. Thus,

27/ An error book is also kept wherein are logged, contrary to Respondent's portrayal of the composition of the error book, mistakes other than date stamping errors, such as misrouting or placing a date stamp on the back of a document. (II-460-1).

28/ This could result in a +3-day error if the affected mail is received in the PTO on a weekend and the following Monday is a holiday. (I-294-5).

29/ The testimony of the supervisor for the *entire* mailroom indicated that the log book was used in some circumstances for personnel evaluations. (VI-81, 83) The incoming mail section supervisor, however, testified that the log book was not an evaluative tool.

30/ It appears that Klein & Vibber's business was primarily conducted from its New York City location. The Westport office at the relevant time did not maintain separate copies of outgoing mail logs, files, etc. While the existence of a Westport office was asserted, no finding is made that there was any mailing from that location. The nature of the office operation described by Respondent, including the records, logbooks, etc., do not support or reconcile with the existence of an operating office in Westport, Conn.

31/ *See also* testimony of other secretarial staff. (V-17)

32/ The paralegal specialist with the PTO who culled information from the printout, testified upon cross-examination that she did not know the printout to be 100 percent accurate. (I-218-9) However, the PTO's supervisory computer systems analyst testified that appropriate data for every patent application filed is fed into the computer. (I-72) *See* GX-15 and 16

33/ Respondent attempts to remove two of the documents involved here, the Klinkhardt and Menges applications, from consideration, since Respondent, who signed the papers, did not sign the certificates of mailing. *See* V-11, 15-7. If this were permitted, however, then an attorney could avoid responsibility simply by engaging another person to sign certificates of mailing.

grouping by signature on the patent documents themselves is the proper criterion for comparison. Moreover, it is insignificant that trademark applications were excluded from the population of documents investigated. Although Klein & Vibber handles trademark applications (IV-11), the evidence indicates that at most, five trademark papers were filed from Klein & Vibber for the relevant time period accompanied by certificates of mailing.[34/] (GX-14; RX-318-324) Of these five, three were inter-parties trademark opposition where, unlike the *ex-parte* proceedings at issue here, the motivation to back-date is minimal.[35/] (GX-14 at 109, 121, 137)

Respondent argues that since approximately 2,000 pieces of correspondence were sent from Klein & Vibber to the PTO during 1981-1983, the relevant population should be 2,000 rather than 56 or 25. If so, then of the 2,000 pieces of correspondence, only 11 experienced delays — or less than 1 percent. However, papers sent with a certificate of mailing are the relevant documents for consideration here. Only 56 papers were sent from Klein & Vibber with certificates of mailing via the U.S. Postal Service. As previously stated, the general practice at Klein & Vibber was to send documents via their courier service until Mar. 18, 1983. (GX-33 at 1) Of the 56 papers accompanied by certificates of mailing, Respondent signed 25 patent papers; therefore, the percentage of papers at issue here which experienced delay is 11/25 or 44 percent. I conclude that that is a discrete population which is appropriate to consider in this proceeding.

IV. U.S. Postal Service Time

Carolynne Seeman, who was uncontested as the most knowledgeable person in the country about the U.S. Postal Service's Origin-Destination Information System (ODIS), testified regarding expected service times for first class mail to go from one part of the country to another. ODIS measures mail volume and service time (delivery time) — the time it takes an average piece of mail to go from point A to point B. She testified that the maximum number of days for correctly addressed first class mail with proper postage to go from any point in the country to another is 5 days, with consistency at the 4-day mark. (II-522) For mail sent from New York City or Westport, Conn., to Washington, D.C., that is correctly zip-coded, stamped, and deposited before 5 p.m. (in order to receive a postmark for that day of deposit), 8 percent are delivered in 1 day, 73 percent under 2 days, and 91 percent under 3 days. (II-491) For the fiscal years 1981-1983, the Postal Service achieved a 2-day delivery standard approximately 85-90 percent of the time. (RX-19, Table 5; RX-20, Table 6) The "worst case" evidence is indicated in the ODIS Area to States Report, which does not measure achievement of service standards since *all* first-class mail, including those with incorrect zip-codes, stale meterstrips, or deposited with the Postal Service after the last collection of the day (all of which are sender-controllable variables) constitute the sample population. (GX-28)[36/] This Report reveals the average service time from New York City to Washington, D.C., during 1981-1983 for letters was 2.44 days and for flats was 3.06 days. The data for the same period from New Haven and Stamford, Conn., to Washington, D.C., indicates an even lower service time. (GX-25)

Respondent claims reliance on ODIS is misplaced. Delays due to events such as transport breakdowns or weather affect timely delivery of mail. Moreover, since the volume of mail is so large, he contends a statistical sampling cannot reveal individual mail problems. (VII-248) A General Accounting Office Report on ODIS (GAO Report) (RX-27) conducted in 1975 points out that various weaknesses of ODIS such as mingling the service standard information statistics with non-service standard reports, insufficient training of data collection personnel, and advance warning of the day of mail testing, encourage manipulation of data.[37/] (II-514-5) Ms. Seeman testified that the first two problems identified by the GAO Report have been corrected. She also stated that some supervisors and accounting personnel have to be notified so that the mail to be tested is excluded and held aside from normal treatment. (II-515) The Postal Service, however, does send out a directive only to field people with a need to know, instructing them to refrain from disseminating information to the mail processing personnel. Although the GAO Report also criticized ODIS for measuring the time from the date of the postmark rather than the date the piece of mail is actually deposited with the Postal Service, once the piece of mail enters the mail stream and receives a postmark,[38/] the GAO characterized the statistical basis for ODIS as valid.[39/] Respondent attempts to focus attention on situations where pieces of mail are deposited in "dead" collection boxes or in those with infrequent pick-up days.[40/] The location of the collection box used by Klein & Vibber in New York City is in a busy area. There is no evidence that this collection box is subject to interrupted or discontinued pick-ups. Moreover, mail deposited in this collection box from other members of Klein & Vibber was not subject to unusual service delays.

The PTO in the course of its investigation compiled "Survey" data to compare service time experience from 1981-1983 to the PTO from another New York City firm located one block away from Klein & Vibber and in the same New York City zip code. (GX-5-8; I-176-86; III-17) Since Respondent claims he may have mailed one or more of the responses from a location in the Westport, Conn., area, the service time experience of five other firms in that area were checked. (I-187; GX-35, 10-12) The data collected from these firms were compared with the service time experienced by Respondent in papers where he appears as signatory and by others in Klein & Vibber. All these firms as well as the other members of Klein & Vibber experienced service times comparable with the ODIS reports. (II-503) The average mailings to the PTO per day from the firms relied on by the Government as well as by Respondent were calculated to determine the total population of mail from each firm. The total percentage of mail which experienced a service time *greater* than 7 days was a little under 1 percent. (RX-11, 15; GX-54, 55) In analyzing the available information, it appears from Nov. 1982 to May 31, 1983, Respondent was the signatory on 22 mailings accompanied by certificates of mailing to the PTO. Of these 22, 10 Responses under consideration here, or 45 percent, allegedly took over 7 days to get to the PTO. (GX-18) Compare Respondent's alleged service time experience with the experience of others. Among the 30 mailings of the other associates in Klein

34/ Although the current junior attorney testified that 25 percent of Klein and Vibber's work relates to trademarks, he was not employed at the firm during the relevant time period. (IV-191-2)

35/ *See* V-101.

36/ Ms. Seeman testified that first-class mail with unknown delivery dates would be expected to have comparable service times with mail with known delivery dates. (VIII-33-4)

37/ In 1975, the GAO reported a problem with manipulation of data in Detroit (VII-181), and Ms. Seeman testified that there have been, perhaps, no more than five other instances of manipulation since 1970. (VII-184)

38/ Ms. Seeman testified that an assumption is made that the mail is delivered the day it is tested. She stated if mail were not delivered the same day, it would be delivered the following day, but that this occurrence would add an insignificant percentage to delivery time. (II-516)

39/ The Brookings Institution Director of Education Programs, testified that, in direct contradiction to the GAO Report, the statistical basis for ODIS is invalid. The Director, however, is not an expert on service time (VII-235) and throughout his testimony, made various erroneous remarks such as stating the Postal [Service has no standards for delivery time for third-class flats (VII-238) when, in fact, Ms. Seeman testified such standards do exist. (VIII-83-5)

40/ Respondent also raises the issue of the actual time it takes for a piece of mail to reach the hands of the addressee; however, this is irrelevant, since it is the date of receipt at the local Washington, D.C. post office, which the PTO uses as its receipt date, that is of concern here.

& Vibber, 0 exceeded 7 days delivery time to the PTO. (GX-18A) In the Survey data, of the 178 mailings, 2 exceeded 7 days, or 1.1 percent, delivery time to the PTO. (GX-42 at 009) Of the 68 mailings in the Conn. data, 0 took over 7 days to reach the PTO. (GX-10-12, 43) For the two New York City firms relied on by Respondent,[41/] 3 out of 528 mailings for the first firm, or 0.6 percent, exceeded 7 days delivery time to the PTO (RX-10, 11) and 4 out of 616 mailings from the second firm,[42/] or 0.6 percent, exceeded 7 days delivery time to the PTO. (RX-14, 15) The ODIS Reports reflect that for the relevant time period, 97.8 percent of the mail was delivered within 6 days[43/] from New York City to Washington, D.C. and 98.84 percent was delivered within 6 days from Stamford and New Haven, Conn. to Washington, D.C. (GX-25) Thus, only 2.2 percent exceeded a service time of 6 days from New York City to Washington, D.C. and 1.2 percent exceeded a service time of 6 days from Stamford and New Haven, Conn. to Washington, D.C. In contrast, Respondent's alleged service time for 11 out of 25 of his mailings exceeded 1 week. (GX-18, 42 at 009) The mailings of the other members of the Klein & Vibber firm, as well as all of the other examples except the Respondent, comport with the ODIS Reports expectations. (GX-18A)

Respondent did not rebut the statistical reliability of the Survey data samples or the calculations performed to arrive at the statistical results.[44/] (GX-41-45A) Respondent asserts, however, that the data lack validity since the Survey and Conn. cases data are not random samples and are, therefore, not representative of the corresponding population; the samples, instead, refer to the particular firm from which the data were drawn. A statistical inference about a total population, thus, cannot be drawn therefrom. (VI-105, 128-33)

Much testimony and discussion abounds regarding the proper characteristics of a random sample: from consideration of whether all patent and trademark applications from the zip code in question should have constituted the sample population to the use of a random numbers table. (VI-103, 120) In fact, Respondent's expert witness testified that the purest, most acceptable method of generating random samples is to consult a table of random numbers usually generated by a computer. (VI-120) However, even such a table is not actually random, since the computer only simulates a random process. This serves to illustrate the difficulties in obtaining a pure random sampling.[45/] Even when reviewed in the best possible light for Respondent, if the data source firms deposited mail in the morning while the rest of the New York City or Conn. population deposited mail in the afternoon, then the Survey mean could be 2 days less than the New York City population as a whole. (VIII-32) Not only is this extreme situation unlikely, there was testimony that the New York firm generally deposits mail in the afternoon (III-26). The Survey data are, thus, close to that of the New York City population, and sender-controllable variables such as correct postage, proper address, and bias were taken into consideration.[46/] Mail is already sufficiently random for ODIS data, since calculations are made based upon delivery. Respondent's expert witness, on the other hand, testified that even if all variables or sender-controllable fact differences are eliminated, the experience of one firm is not a valid indicator of the population as a whole. (VI-129-33) For the purpose of transit time, however, it does not matter who deposits mail or for what reasons mail is deposited.[47/] Moreover, it is reasonable to expect that a firm with a patent practice similar to that of Klein & Vibber will share the same need to meet PTO deadlines, fill out certificates of mailing, and deposit mail.[48/] The PTO primary examiner, who performed the simple statistical analyses for the Survey such as a one-tailed T-test for comparing populations with an unknown standard deviation, found the Survey samples and Conn. sample size statistically reliable.[49/] (II-553, 560) Of the total of 178 letters analyzed in the Survey, 35 took 1 day for delivery, 88 took 2 days, and 3 took 6 days (GX-41), for an average of 2.38 delivery days. (II-552) Although randomness is important, it is not necessary to have a pure random sampling in order to obtain a representative sample.

The treatment and service time of flats and third class mail were thoroughly explored. Respondent claims most of Klein & Vibber's mail is sent in flats rather than letter envelopes and attempts to show that first class tan-colored flats frequently are mistakenly sorted with third-class mail (VII-236-7) due to similarity in color and size, location on the same sortation tables, manual rather than machine treatment, and postage rate checking. Respondent further asserts that ODIS reports do not take into account flats never placed into the first-class mail stream (VII-255-6) nor does it identify mail which had at some point been placed in the wrong mail stream. (VIII-60)

Ms. Seeman testified that tan-colored first-class flats were unlikely to be mistaken for third-class flats (VIII-30-1), since most third-class mail is deposited in bulk. Any flats from Klein & Vibber would have been individually mailed. (VIII-29, 31, 36-8, 62-3) Moreover, even if most of Respondent's mail is sent in flats,[50/] Ms. Seeman testified first-class flats do not have significantly different service times from first-class letters from New York City or Conn. to Washington, D.C. Contrary to Respondent's assertions, Ms. Seeman stated that ODIS does have delivery standards for third-class flats and the Reports would reflect the extent that first-class flats are diverted into the third-class mail stream. (VIII-36-8) The most telling point, however, is the comparison between Respondent's service time experience with that of the other members of Klein & Vibber. As discussed earlier, none of the other attorneys and agents at the firm experienced over a 5-day service time to the PTO during the relevant time period. (GX-18A)

Although New York City poses special problems for delivery due to its size and transient population, Ms. Seeman testified most of the problems occur in delivery to New York City, not mailing from New York City to other points in the country. (II-518, 520) Moreover, any problems in delivery would be reflected in the Reports. (II-520) Even though New York City has been identi-

41/ Using the figures and testimony supplied by Respondent, the total number of mailings was calculated by multiplying the average number of mailings per day by 22 days (the average number of business days per month) and multiplying this figure by 8, the number of months under consideration— Nov. 1982 to June 1983.

42/ From the testimony, multiple papers were sometimes mailed in one envelope. (V-43) Although there was testimony that the firm averaged 7 pieces per day (RX-15), it is unclear what the number of mailings per day were. If 7 papers mailed in 7 separate envelopes is high and 7 papers mailed in 1 envelope is low, 3½ mailings is the average. The total mailings were calculated using this figure.

43/ The delivery time for letters and flats were calculated together.

A delivery time of within 6 days was chosen rather than over 7 days because after the "day 6" category, the ODIS Reports percentages are calculated for a 7-10 day range category.

45/ *See Nordic Fisheries*, 4 Ocean Resources and Wildlife Reporter, 432, 436 (1985), for a discussion of the level of "pure" random sampling required to find sufficient and valid statistical calculations.

46/ Respondent attempted to show that bias exists in the New York test firm, since that firm and Klein & Vibber share a client. The New York firm's attorney who testified was unaware of the identity of Respondent during the investigation until shortly before the hearing (III-42) and was asked only to provide information about his firm's service time for mail sent to the PTO. Copies of that firm's return-receipt postcards, which are sent with every paper filed in the PTO (III-19), correspond with the papers themselves within the PTO. (GX-7).

fied as a problem area in terms of Postal Service goals, Respondent's alleged service time substantially exceeds the average service time for New York City.

Delays in delivery occur. Everyone has had some complaint or story to relate. Nevertheless, the vast majority of our mail is timely delivered. Respondent's strategy is to bury the Postal Service record in a sea of superfluous, tangental, ancilliary and extraneous allegations and horror stories. Although he has characterized agency counsel's statistical evidence as "voodoo statistics," (Respondent Reply Brief at 11), he, too, relies on equally disputable statistical analyses. Nonetheless, the ODIS Reports, comparisons with the other firms in the area and with other members of Klein & Vibber, as well as common sense and shared experience with the postal system are clearly convincing that the number and percentage of Respondent's alleged mail delays were not attributable to the U.S. Postal Service.

V. Requirements for Information

Respondent claims the PTO has no statutory, regulatory, or judicial basis for requiring applicants to complete Requirements for Information; therefore, the Requirements are invalid and any information culled from them is the fruit of the poisonous tree. Contrary to Respondent's assertion, at least with regard to regulatory authority, 37 C.F.R. §1.56(i) contains specific authority for the PTO to require information.[51/] He also errs regarding the agency's basic authority. Applicants for licenses and members of a bar may be required to provide responses to agency inquiries as a condition for maintaining the license. The PTO regulations and Requirements for Information are valid unless inconsistent with law. *See Digital Equipment Corp.* v. *Diamond*, 653 F.2d 701 (1st Cir. 1981).

VI. Due Process

Respondent contends that the statutes and regulations governing PTO disciplinary proceedings violate his due process rights by failing to clearly establish the burden of proof, containing references to sections of the Administrative Procedure Act (APA) which no longer exist, and imprecisely establishing applicable standards of conduct.

Due process does not require standards of proof to be explicitly stated in statutes or regulations. In *Steadman* v. *SEC*, 450 U.S. 91 (1981), a disciplinary proceeding, the Supreme Court stated:

> Where Congress has not prescribed the degree of proof which must be adduced by the proponent of a rule or order to carry its burden of persuasion in an administrative proceeding, this Court has felt at liberty to prescribe the standard, for "[i]t is the kind of question which has traditionally been left to the judiciary to resolve." *Woodby* v. *INS*, 385 U.S. 276, 284 (1966).

In this proceeding, as in all PTO disciplinary proceedings, the standard of proof to be applied is that of clear and convincing evidence. Although *Steadman* indicates that preponderance of the evidence is the applicable standard in administrative proceedings, disciplinary proceedings by virtue of agency rule and judicial standards demand this greater protection and a higher standard of proof applies.

Since Respondent fails to specify what, if any, provisions of the APA no longer exist and are inconsistent with the present APA, or how they were used in a manner to deny him a fair hearing, the claim is without merit. Moreover, it is the present APA which governs here, regardless of any alleged, yet undefined, inconsistent PTO regulations.

Respondent's argument that it is unclear which American Bar Association Code applies is also without merit. 37 C.F.R. §1.344 states that the applicable Code is the one as amended on Feb. 24, 1970.

Respondent also claims he was denied access to crucial PTO records and was therefore incapable of adequately defending himself. Contrary to Respondent's assertions, massive, burdensome discovery was permitted. Although certain documents were withheld on the grounds of privilege,[52/] respondent failed to demonstrate entitlement to any of these withheld documents nor the harm he suffered from lack of access.

Although Respondent may disagree with rulings on matters not specifically provided for by statute or regulation, the Administrative Law Judge is the magisterial functionary assigned to make rulings in harmony with the APA and due process. The propriety of these rulings are matters of record for review.

Respondent claims that investigative, prosecutorial, and adjudicative functions are embodied in the PTO Solicitor, which, therefore, denies him a fair proceeding. Under 5 U.S.C. §544(d) and 37 C.F.R. §1348(a), however, no one involved in the investigation or prosecution of a case shall participate in the decision of the case. Also, in his Decision on Petition dated June 21, 1985, Commissioner Quigg has disqualified the Solicitor, Deputy Solicitor, and any attorney who participated in the investigation or prosecution phase of this case from participating in the adjudicatory phase. In light of these safeguards, there appears to be no undue blurring of functions or deprivation of Respondent's due process rights. Certainly this curmudgeon-in-residence neither brooks nor acknowledges any but his personal exercise of the adjudicatory APA functions to date in this processing.

Respondent contends that the lack of direct evidence invalidates Government's case, since "mere" circumstantial evidence is an inadequate foundation to form a judgment. Au contraire! Even in criminal proceedings, which demand that most difficult standard "beyond a reasonable doubt" of proof, circumstantial evidence has been found more than sufficient to convict many a defendant.

Respondent suggests that the Government failed to have one of the former associates of Klein & Vibber during 1981–1982 testify because he would have produced exculpatory evidence. The issue of exculpatory evidence had been dealt with prior to the hearing by the ALJ's Order of June 10, 1985. The Solicitor averred he was not withholding such evidence. The issue of this associate's testimony or how Government could or could not have presented its case or why it could or could not have called anyone as a witness is beside the point. If Respondent wished to have the associate testify, he had the opportunity to subpoena him as a witness. Respondent may not now draw inferences from the absence of the associate as an agency witness.

Respondent complains that the Government's investigation continued after the Notice of Proceeding. Agency counsel claims that the investigation continued and additional evidence was acquired through discovery. No infirmity exists in the acquisition of this additional information, since no rule, case, or statute requires that the clear and convincing evidence test be satisfied for an administrative proceeding at the time charges are brought.

VIII. Standard of Neglect

Respondent contends that there must be a showing of willfull neglect or abandonment of a legal matter entrusted to an attorney before a violation may be found. The cases cited by Respondent, however, involve state bar disciplinary rules which explicitly require that

51/ The regulation states "[t]he Office may require applicant to supply information pursuant to paragraph (a) of this section in order for the Office to decide any issues relating to paragraphs (c) and (d) of this section which are raised by a petition or a protest, or are otherwise discovered by the Office."

52/ These records have historically been kept confidential and unavailable for public inspection under the Privacy Act System of Records, 5 U.S.C. §522a(b), 46 Fed. Reg. 63496 at 63546 (1981).

neglect be willfull.[53/] Neither the PTO regulations nor the relevant Code requires a showing of willfullness. Although Respondent was permitted to inspect prior PTO disciplinary proceedings on the matter of neglect, no precedential proceedings were cited to support his theory.

FINDINGS

1. Arthur O. Klein, Respondent, is an attorney registered to practice before the Patent and Trademark Office (PTO), registration number 19102.
2. Respondent was attorney of record in patent application Serial No. 06/67,143, in the name of Romer, *et al.*
3. The PTO notified Respondent that payment of the base issue fee was due on or before June 2, 1981, and the base issue fee was received in the PTO on June 2, 1981.
4. An amendment (Response I), due on or before the date the issue fee was to be paid under 37 C.F.R. §1.312, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on July 2, 1981 — 30 days after the due date for Response.
5. The certificate of mailing represented that Response I was mailed to the PTO on June 2, 1981.
6. The PTO mailroom date of receipt of July 2, 1981, is accurate.
7. Respondent knew or should have known that Response I was mailed to the PTO after June 2, 1981.
8. Respondent was attorney of record in patent application Serial No. 06/198,861, in the name of Stoev, *et al.*
9. The PTO notified Respondent that Response II, petition to extend time, and appropriate fee were due on or before Nov. 23, 1982.
10. A petition to extend time and Response II, signed by Respondent and accompanied by a certificate of mailing, were received in the PTO on Dec. 2, 1982 — 9 days after the due date for Response.
11. The certificate of mailing represented that Response II was mailed to the PTO on Nov. 23, 1982.
12. The PTO mailroom date of receipt of Dec. 2, 1982, is accurate.
13. Respondent knew or should have known that Response II was mailed to the PTO after Nov. 23, 1982.
14. Respondent was attorney of record in patent application Serial No. 06/199,501, in the name of Prasil, *et al.*
15. The PTO notified Respondent that Response III, petition to extend time, and appropriate fee were due on or before Jan. 14, 1983.
16. A petition to extend time and Response III, signed by Respondent and accompanied by a certificate of mailing, were received in the PTO on Jan. 27, 1983 — 13 days after the due date for Response.
17. The certificate of mailing represented that Response III was mailed to the PTO on Jan. 14, 1983.
18. The PTO mailroom date of receipt of Jan. 27, 1983, is accurate.
19. Respondent knew or should have known that Response III was mailed to the PTO after Jan. 14, 1983.
20. The PTO sent Respondent Requirement for Information A on June 11, 1984, questioning Respondent about mail log date entries.
21. Requirement A stated:

    2. The copy of the page from the mail log attached to question 1 of the last Requirement for Information raises some questions. At the top of the page is the heading "Jan. 14, 1983" and listed thereunder are two entries, each with a later date in Jan. 1983. At the bottom, there is an item identified as "Customer's Receipt Number."

    a. For each entry, what is the significance of the particular January date (other than Jan. 14, 1983)?

    Respondent's response filed on July 9, 1984, answered:

    2(a). In the fourth line of the page of the mail-log there is the date Jan. 21, 1983. And in the tenth line of the mail-log there is the date Jan. 27, 1983. These dates refer to the dates the items were received by the Patent and Trademark Office according to our return postcard.

22. It was represented the practice at Klein & Vibber during 1981–1983 was to enter the firm's return-receipt postcard date as the second date entered in the mail logs.
23. Respondent's answer that the date of Jan. 21, 1983, in the mail log refers to the date the item was received in the PTO is not only erroneous, but no item listed in entry (1) of mail log A was received in the PTO on Jan. 21, 1983.
24. Respondent should have known that his answer in Requirement A was false. Respondent made certain statements, material to the inquiry, in answer to the Requirement for Information. The correct response however, would have been substantially different from what he represented. Since it was within his ability to know and he was obligated to know the accurate answer, Respondent made a false representation.
25. Respondent was attorney of record in patent application Serial No. 06/238,372, in the name of Blomenroehr.
26. The PTO notified Respondent that Response IV was due on or before Feb. 22, 1983.
27. Response IV, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on Mar. 8, 1983 — 14 days after the due date for a Response.
28. The certificate of mailing represented that Response IV was mailed to the PTO on Feb. 22, 1983.
29. The PTO mailroom date of receipt of Mar. 8, 1983, is accurate.
30. Respondent knew or should have known that Response IV was mailed to the PTO after Feb. 22, 1983.
31. Respondent was attorney of record in patent application Serial No. 06/222,527, in the name of Reinecke, *et al.*
32. The PTO notified Respondent that the Response V was due on or before Feb. 24, 1983.
33. Response V, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on Mar. 14, 1983 — 16–18 days after the due date for Response.
34. The certificate of mailing represented that Response V was mailed to the PTO on Feb. 24, 1983.
35. The PTO mailroom date of receipt of Mar. 14, 1983, is accurate.
36. Respondent knew or should have known that Response V was mailed to the PTO after Feb. 24, 1983.
37. Respondent was attorney of record in patent application Serial No. 06/185,581, in the name of Metz, *et al.*
38. The PTO notified Respondent that Response VI, petition to extend time, and appropriate fee were due on or before Feb. 28, 1983.
39. A petition to extend time and appropriate fee were received in the PTO on Feb. 28, 1983.

53/ *See Hunt* v. *Disciplinary Board of the Alabama State Bar*, 381 So.2d 52 (S.Ct. Ala. 1980); *Davis* v. *State Bar of California*, 655 P.2d 1276 (S.Ct. Cal. 1983).

40. Response VI, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on Apr. 25, 1983 — 54–56 days after the due date for Response.
41. The certificate of mailing represented that Response VI was mailed to the PTO on Feb. 28, 1983.
42. The PTO mailroom date of receipt of Apr. 25, 1983, is accurate.
43. Respondent knew or should have known that Response VI was mailed to the PTO after Feb. 28, 1983.
44. Respondent was attorney of record in patent application Serial No. 06/190,730, in the name of Cech, *et al.*
45. The PTO notified Respondent that Response VII, petition to extend time, and appropriate fee were due on or before Mar. 14, 1983.
46. A petition to extend time and appropriate fee were received in the PTO on Mar. 10, 1983.
47. Response VII, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on Mar. 28, 1983 — 12–14 days after the due date for Response.
48. The certificate of mailing represented that Response VII was mailed to the PTO on Mar. 14, 1983.
49. The PTO mailroom date of receipt of Mar. 28, 1983, is accurate.
50. Respondent knew or should have known that Response VII was mailed to the PTO after Mar. 14, 1983.
51. Respondent was attorney of record in patent application Serial No. 06/255,843, in the name of Menges, *et al.*
52. The PTO notified Respondent that Response VIII was due on or before Mar. 16, 1983.
53. Response VIII, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on Apr. 11, 1983 — 24–26 days after the due date for Response.
54. The certificate of mailing represented that Response VIII was mailed to the PTO on Mar. 16, 1983.
55. The PTO mailroom date of receipt of Apr. 11, 1983, is accurate.
56. Respondent knew or should have known that Response VIII was mailed to the PTO after Mar. 16, 1983.
57. Respondent was attorney of record in patent application Serial No. 06/251,924, in the name of Samsinakova, *et al.*
58. The PTO notified Respondent that Response IX, petition to extend time, and appropriate fee were due on or before Mar. 30, 1983.
59. A petition to extend time and Response IX, signed by Respondent and accompanied by a certificate of mailing, were received in the PTO on Apr. 7, 1983 — 8 days after the due date for Response.
60. The certificate of mailing represented that Response IX was mailed to the PTO on Mar. 30, 1983.
61. The PTO mailroom date of receipt of Apr. 7, 1983, was accurate.
62. Respondent knew or should have known that Response IX was mailed to the PTO after Mar. 30, 1983.
63. The PTO sent Respondent Requirement for Information B on Dec. 14, 1983, questioning Respondent about mail log date entries.
64. Requirement B stated:

2. The copy from the page from the mail log attached in response to question 4 of the last Requirement for Information raises some questions. At the top of the page is the heading "Mar. 30, 1983 Certificate of Mailing" and listed thereunder are four entries, each with a date in April, 1983.

a. Does the above-mentioned heading indicate that all four entries were mailed to the PTO with a certificate of mailing of Mar. 30, 1983? If not, what does the heading refer to?

b. For each entry, what is the significance of the particular April date?

Respondent's response filed on July 9, 1984, answered:

2(a). Yes.

2(b). In each case the date in April refers to the date when the item was received by the Patent Office according to our return postcard.

65. It was the practice at Klein & Vibber during 1981–1983 to enter the firm's return-receipt postcard date as the second date entered in the mail logs.
66. Respondent's answer that the four entries under the heading "Mar. 30, 1983," were mailed with certificates of mailing was false, since only item 4 was mailed with a certificate of mailing.
67. Respondent's answer that the April, 1983 dates in the mail log refer to the date the items were received in the PTO is not only false but none of the items listed in entries (1), (2), and (3) of mail log B was received in the PTO on the April dates listed therein.
68. Respondent should have known that his answers in Requirement B were false. Respondent made certain statements, material to the inquiry, in answer to the Requirement for Information. The correct responses however, would have been substantially different from what he represented. Since it was within his ability to know and he was obligated to know the accurate answer, Respondent made a false representation.
69. Respondent was attorney of record in patent application Serial No. 06/257,263, in the name of Klinkhardt, *et al.*
70. The PTO notified Respondent that Response X, petition to extend time, and appropriate fee were due on or before Apr. 8, 1983.
71. A petition to extend time (Response X) signed by Respondent and appropriate fee accompanied by a certificate of mailing were received in the PTO on May 18, 1983 — 40 days after the due date for Response.
72. The certificate of mailing represented that Response X was mailed to the PTO on Apr. 8, 1983.
73. The PTO mailroom date of receipt of May 18, 1983, was accurate.
74. Respondent knew or should have known that Response X was mailed to the PTO after Apr. 8, 1983.
75. Response XI, in the form of an amendment to the Klinkhardt application, was due on or before Apr. 8, 1983.
76. Response XI, signed by Respondent and accompanied by a certificate of mailing, was received in the PTO on Apr. 18, 1983 — 8–10 days after the due date for Response.
77. The certificate of mailing represented that Response XI was mailed to the PTO on Apr. 8, 1983.
78. The PTO mailroom date of receipt of Apr. 18, 1983, is accurate.
79. Respondent knew or should have known that Response XI was mailed to the PTO after Apr. 8, 1983.
80. By representing or allowing a member of his staff to represent that Responses I–XI were mailed on certain dates to the PTO when in fact he knew or should have known these Responses were mailed after the dates represented, Respondent engaged in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1–102(A)(4) of the Code of Professional Responsibility of the American Bar

Association (1970), and failed to comply with the "candor and good faith" standard established by the Supreme court in *Kingsland* v. *Dorsey*, 338 U.S. 318, 319 (1949) and the duty of candor and good faith toward the PTO as required by 37 C.F.R. §1.56.

81. By mailing, causing, or allowing to be mailed to the PTO Responses I–XI after the due dates for Responses (the dates to prevent the corresponding applications from becoming abandoned), Respondent neglected legal matters entrusted to him, in violation of 37 C.F.R. §1.344 and DR 6–101(A)(3) of the Code of Professional Responsibility of the American Bar Association (1970).

82. By answering in Requirement for Information A that the mail log entry dates refer to the dates the items were received in the PTO according to the return-receipt postcards, when Respondent should have known that this answer was false, Respondent engaged in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1–102(A)(4) of the Code of Professional Responsibility of the American Bar Association (1970), and failed to comply with the "candor and good faith" standard established by the Supreme Court in *Kingsland* v. *Dorsey*, 338 U.S. 318, 319 (1949), and the duty of candor and good faith toward the PTO as required by 37 C.F.R. §1.56.

83. By answering in Requirement for Information B that the mail log entry dates refer to the dates the items were received in the PTO according to the return-receipt postcards and that the listed items were mailed with certificates of mailing when Respondent should have known that these answers were false, Respondent engaged in conduct involving dishonesty, fraud, deceit, or misrepresentation, in violation of 37 C.F.R. §1.344 and DR 1–102(A)(4) of the Code of Professional Responsibility of the American Bar Association (1970), and failed to comply with the "candor and good faith" standard established by the Supreme Court in *Kingsland* v. *Dorsey*, 338 U.S. 318, 319 (1949), and the duty of candor and good faith toward the PTO as required by 37 C.F.R. §1.56.

CONCLUSION

In arriving at the above findings, I have carefully reviewed the evidence, Respondent's and Solicitor's exhibits and testimony, and have given consideration to Respondent's long years of practice before the Patent and Trademark Office and absence of any prior charges, investigations, or disciplinary proceedings brought by any bar association or the Patent and Trademark Office. The Origin-Destination Information System Reports, service time experience of the Survey, samples from other firms, as well as from other members of Klein & Vibber, that law firm's check writing and other office practices, and PTO mailroom procedure, when considered together, demonstrate convincingly reliable evidence of mail service time. Respondent's docketing and mailing systems, which he purports prevented attorneys at Klein & Vibber from inadvertently missing due dates, do not appear to have been nearly as efficient and foolproof as Respondent would have me believe. In fact the testimony of the firm's employees and examination of the records which were made available reflect that the records-keeping systems were incomplete, not consistently understood by persons who made and used them, and were inadequate. Loose checks, not accounted for numerically, lying about in various desks, inconsistent entries in the mail logs, mistakes in crossing out entries on the wall calendar all demonstrate a lack of orderly office procedures. It is recognized the presence or absence of efficient office practices alone is not proof that Respondent failed to abide by acceptable practices or to timely mail the Responses. The practices are, however, some indication of the "modus operandi" of the firm. If the office "reminders" testified to were, in fact, in place, Respondent's conduct in failing to observe these due dates is even more culpable. It is noteworthy that the others in the firm experienced no or comparatively insignificant delays in mail service time during the relevant time period for the papers they signed.

The Origin-Destination Information System Reports show an average service time of 2 to 3 days. Eleven of the 25 papers Respondent signed during 1981–1983 experienced delays statistically inconsistent with the Postal Service data. Common sense and experience indicate that any imperfections in the Origin-Destination Information System, the Patent and Trademark Office mailroom, or Survey and sample data cannot explain Respondent's alleged service time delay. Comparison of these factors with the pattern of papers signed by Respondent and those signed by other practitioners in the firm indicate and I conclude that Respondent's papers were mailed after the dates on the certificates of mailing. The backdating of certificates of mailing or mailing the papers after the date represented by the certificates of mailing, corresponds logically, harmoniously, and convincingly with all the evidence.

Respondent's claim that he had no motive to backdate the certificates of mailing is ingenuous. Respondent's failure to timely file papers in the PTO would result in abandonment. In order to circumvent the inevitable result of his negligent handling of his client's papers, Respondent could certainly be motivated to seek refuge in backdating.

The misrepresentations contained in Respondent's answers to the Requirements for Information indicate either an incredible and intolerable ignorance of his own office's practices or a calculated attempt at deception. I conclude that it was the latter. In either event, Respondent knew or should have known the answers were false. The patent system depends more heavily than is usual in other practices upon the integrity of its practitioners, for the usual adversary is most often not present. [54/] The PTO was entitled to receive and reply upon counsel's answers, but his answers were false.

I conclude Respondent engaged in dishonesty, fraud, deceit, and misrepresentation. He also neglected legal matters entrusted to him, all in violation of 37 C.F.R. §1.344 and DR 1–102(A)(4) and DR 6–101(A)(3), respectively, of the Code of Professional Responsibility of the American Bar Association (1970), and violated the duty of candor and good faith required under 37 C.F.R. §1.56, with respect to each of the charges established here and recommend the disbarment of the Respondent from further practice before the United States Patent and Trademark Office.

The above conclusions are not predicated on findings that this Respondent set about deliberately to put himself into this terrible situation. It rather appears that he consciously allowed his submissions to be sent late and backdated. Once the contract courier was missed, because his submissions were not ready, some of the mailings were put off. Delay and falsification of dates became something of a habit for his filings. The office coverup and false responses to subsequent the legitimate inquiries by the Patent and Trademark Office reveal an intolerable attitude and continuing pattern of misconduct.

RECOMMENDATION

That Arthur O. Klein of New York City, N.Y. and Westport, Conn., whose Patent Office attorney registration number is 19102 be barred from practice as a patent attorney before the United States Patent and Trademark Office.

This action is recommended under the provisions of Section 32 of Title 35, U.S. Code, and Section 1.348, Title 37 of the Code of Federal Regulations.

SPECIAL BOXES FOR MAIL

Special PTO mail box numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each box are addressed to that box, they will be delayed in reaching the appropriate area for which they are intended.

The following special boxes should be used only for their specified purpose. Address mail as follows:

Box_____
Commissioner of Patents and Trademarks
Washington, D.C. 20231

Box 3	Mail for the Office of Personnel from NFC.
Box 4	Mail for the Office of Legislation and International Affairs.
Box 5	"No fee" mail related to trademarks (e.g. amendments to applications and request for extensions of time to file an opposition). Mail directed to the Trademark Trial and Appeal Board should have "Attention TTAB" on the envelope in addition to "Box 5".
Box 6	Mail for the Office of Procurement.
Box 7	Reissue applications for patents involved in litigation and any subsequently filed papers for those applications.
Box 8	All papers for the Office of the Solicitor.
Box 9	Coupon orders for the U.S. patent and trademark copies.
Box 10	Orders for certified copies of patent and trademark applications.
Box 11	Electronic Ordering Service (EOS).
Box 12	Contributions to the Examiner Education Program.
Box AF	Amendments or responses to final rejections in patent applications, submitted under the expedited processing program.
Box FWC	Mail related to File Wrapper and Continuations.
Box Interference	Communications relating to interferences and applications and patents involved in interferences.
Box M. Fee	Correspondence related to a patent that is subject to the payment of a maintenance fee.
Box Pat. Ext.	Applications for patent term extension.
Box PCT	Mail related to applications filed under the Patent Cooperation Treaty.
Box Reexam	Mail related to reexamination application.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
